PUBLIC SPACE – LINEAR PARK (LP)

VIEW #1

LOCATION:
PUBLIC

PLACE:
LINEAR PARK

A linear park is an interconnected park typically along rivers, streams, or canals that is connected by pedestrian walkways and bicycle paths.

PRIMARY INSIGHT:
ENHANCE IDENTITY & LIFESTYLE

Nature-rich and immersive outdoor experiences that offer an inspiring retreat from daily life can enhance personal identity and lifestyle by sparking interactions with nature and with others.

ELEMENTS, ATTRIBUTES, AND USER EXPERIENCE

- A** A linear park adjacent to riverfront housing elevates the river as a community resource and celebrates water views.
- B** Wide pathway allows for easy and safe use by pedestrians and cyclists and encourages outdoor activities.
- C** Landscaping intertwines people with nature in an urban setting and helps to demarcate the edges of public and private zones. A sleek, linear rain basin accents plant life and demonstrates a commitment to sustainability.
- D** Paved areas and mini-piers encourage community gathering along the waterfront and enhances the community feel of a neighborhood.
- E** **Charlie tables** and **Shade umbrellas** create sheltered gathering areas that encourage a sense of community.
- F** **Stay benches** provide comfortable gathering areas for multiple groups simultaneously.
- G** **Jessie rails** provide a surface for food or beverages while enjoying luxurious waterfront views.

ELEMENTS, ATTRIBUTES, AND USER EXPERIENCE (CONTINUED)

- H** **Guide bollards** define the edges of each mini-pier and the end of the main walkway.
- I** **Signal pedestrian lighting** provides an element of safety that extends use of the park into the evening hours.
- J** **Pitch litters** provide attractive options to conceal and recycle waste.
- K** **Sorella planters** offer a habitat for colorful flowers, define boundaries between walk path and gathering areas, and engage visual and olfactory senses.
- L** **FGP bike racks** support healthy practices and alternative transit options by providing secure bike storage. This also invites park use by riders coming from a greater distance.
