**LOCATION:**  
GENERAL HEALTHCARE CAMPUS

**PLACE:**  
HEALING GARDEN

Healing Garden is a serene area where nature engages and fills the senses via color, smell, touch and sound.

**PRIMARY INSIGHT:**  
NURTURE HEALING

Connecting patients, staff, and visitors with natural light, fresh air, and nature helps to nurture healing, provide moments of respite, and establish a healthy mind-body balance.

## ELEMENTS, ATTRIBUTES, AND USER EXPERIENCE

- A** Ample seating clusters allow users to situate themselves in social groups or smaller personal configurations as desired for moments of respite or quiet conversation.
- B** Large curvilinear **Hebi benches** allow for comfortable, interactive, and inclusive seating arrangements for those who are wheelchair bound.
- C** **Chipman chairs** offer full postural and arm support for patients.
- D** A row of **Sorella planters** create a sense of place, offer a habitat for flowers, and engage visual and olfactory senses to refresh and heal.
- E** **Guide bollards** define and illuminate a clear walking path around a serene water feature.
- F** An overhead trellis (custom element) offers a zone of partial shade and increased privacy from upper floors of the healthcare facility.
- G** Water feature is a serene central focal point.
- H** Perimeter gardens offer an alternate outward facing view for those wanting a peaceful, secluded healing experience.
