

HEALTHCARE APPLICATION

GENERAL HEALTHCARE – MEDITATION GARDEN (G-MG)

VIEW #1

LOCATION:
GENERAL HEALTHCARE CAMPUS

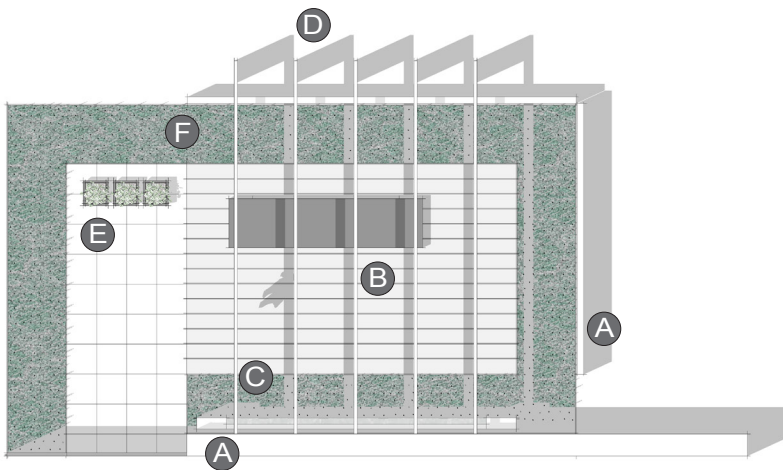

PLACE:
MEDITATION GARDEN

Meditation Garden is a small, enclosed, and quiet garden with a central focal point to help patients concentrate and relax as part of the healing process.

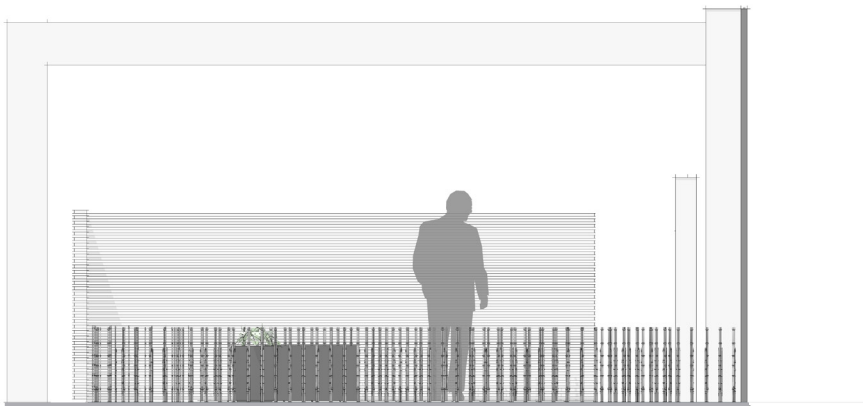

PRIMARY INSIGHT:
NURTURE HEALING

Connecting patients, staff, and visitors with natural light, fresh air, and nature helps to nurture healing, provide moments of respite, and establish a healthy mind-body balance.

ELEVATION

ELEMENTS, ATTRIBUTES, AND USER EXPERIENCE

- A** A secluded, intimate, and relaxing feel is created through use of a privacy fence (custom element) and positioning of setting adjacent to a building to shield garden visitors from view.
- B** **Abril bench** is generous in scale to support quiet socialization for multiple users or reclined postures for lone contemplation.
- C** A granite water wall (custom element) creates a calming focal point to encourage concentration and healing relaxation.
- D** An overhead trellis (custom element) creates a layer of enclosure while allowing sunlight to illuminate the space.
- E** **Sorella planters** create a sense of place and offer a habitat for colorful flowers which engage visual and olfactory senses to uplift the spirit.
- F** Reeds surrounding the deck and pavers create a serene floating island effect.
