

HEALTHCARE APPLICATION
PEDIATRIC HEALTHCARE – RETREAT (P-R)

VIEW #1

LOCATION:
PEDIATRIC HEALTHCARE CAMPUS

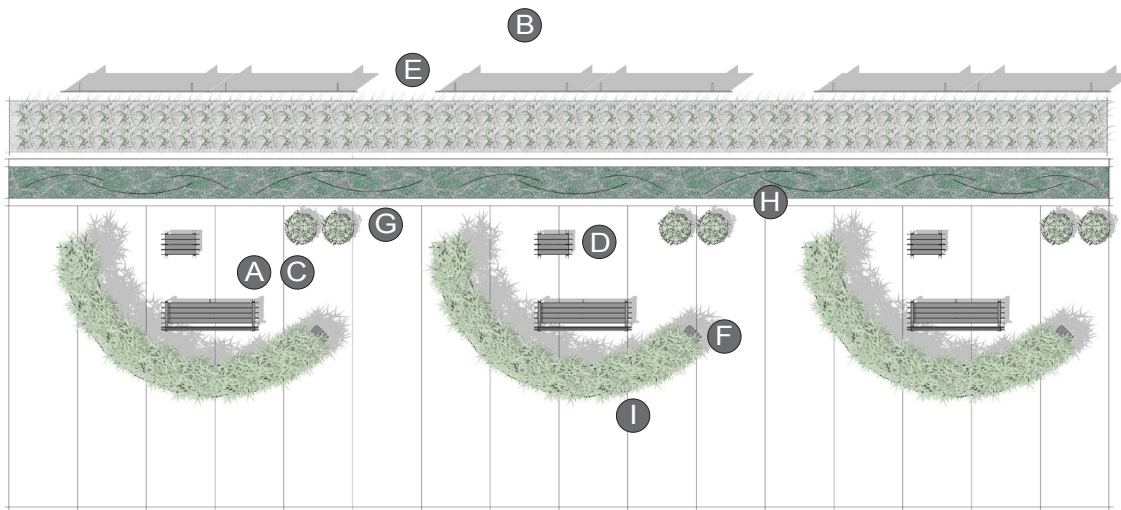

PLACE:
RETREAT

Retreat is a small area of respite where one can contemplate or privately converse with others.

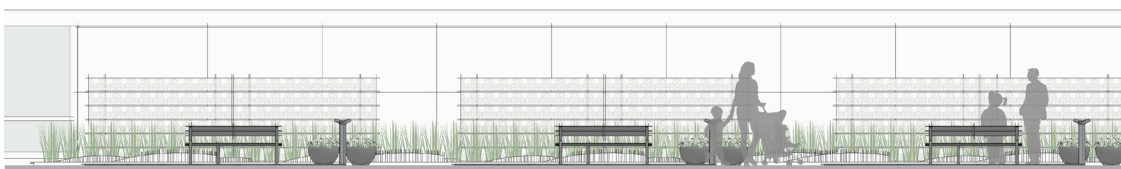

PRIMARY INSIGHT:
NURTURE HEALING

Connecting patients, staff, and visitors with natural light, fresh air, and nature helps to nurture healing, provide moments of respite, and establish a healthy mind-body balance.

ELEMENTS, ATTRIBUTES, AND USER EXPERIENCE

- A** Seating arrangements can be scaled to easily accommodate individuals, small groups, and wheelchair access.
- B** Retreat settings should be sheltered from view of others within the healthcare facility.
- C** Harpo benches allow close, intimate conversations.
- D** Harpo backless benches offer flexibility to face another individual on the bench for uplifting social interactions or turn to focus on the water element for quiet individual contemplation.
- E** Organic patterns on translucent fascia (custom element) add color and visual appeal.
- F** MultipliCITY path lights signal entry into each respite setting.
- G** Rosa planters offer a habitat for flowers which engage visual and olfactory senses.
- H** Integrated fountains that feature moving water over pebbles create a calming audible experience. Sculptural, and colorful elements embedded in the moving water add a touch of whimsy.
- I** Curved landscaping creates a softened boundary for the setting.
