

## PLAY APPLICATION FITNESS MICRO-PARK (FMP)

VIEW #1

**LOCATION:**  
PUBLIC SPACE

**PLACE:**  
FITNESS MICRO-PARK

A fitness micro-park is a segment of a larger outdoor park or trail system designed to encourage exercise and provide a place to take a break from physical activities.

**PRIMARY INSIGHT:**  
ENHANCE CITY HARMONY

Providing combined parks and landscapes that offer places for activity and respite connects people and enhances city harmony.

## ELEMENTS, ATTRIBUTES, AND USER EXPERIENCE

- A** A combination of seating areas and exercise stations create a park that encourages both activity and rest.
- B** **Austin benches** provide safe and secure platforms for isometric and plyometric exercises as well as a place to rest or socialize between activities.
- C** **Sentinel bollards** highlight the micro-park as a destination along the walking path in the evenings, while a combination of hardscaping and plantscaping help to create a sense of place.
- D** **Reeder illuminated sign** aids in park wayfinding while also highlighting key instructional and safety information for exercise stations.
- E** An overhead tree canopy provides shade from sun to create a more comfortable place to gather.
