ELEMENTS, ATTRIBUTES, AND USER EXPERIENCE

- A** Multiple paths for walkers, joggers, and cyclists encourage healthy activity and spur interaction between neighbors.
- B** A water feature serves as a focal point in the space while promoting relaxation and contemplation.
- C** Furnished areas facilitate communal gatherings for respite, socialization, or dining.
- D** A large centralized open lawn area offers space to run, play, or picnic. Movies can be projected on the rear side of climbing walls.
- E** **GO OutdoorTables** with canopies and **Chipman stools** add shaded spaces for casual or spontaneous get-togethers and opportunities to re-charge.
- F** **Parc Centre tables** and **Parc Centre chairs** invite dining and gaming in a relaxing setting near the pond.
- G** **Hi-Glo pedestrian lighting** extends safe illumination into the evening hours, but can be dimmed while movies are projected to minimize glare.

PLAN

ELEMENTS, ATTRIBUTES, AND USER EXPERIENCE (CONTINUED)

- H** **Lo-Glo path lighting** effectively lights pathway without creating glare for movie viewing.
- I** **Connect rails** near the climbing walls support leaning and resting between climbs.
- J** **Collect litters** provide attractive options to conceal and recycle waste.
- K** **Rest benches** offer respite along circulation paths and also provide comfort while viewing climbing activities or movies.
