

TRANSIT APPLICATION WALKWAYS AND CONNECTIONS (WC1)

VIEW #1

VIEW #2

VIEW #3

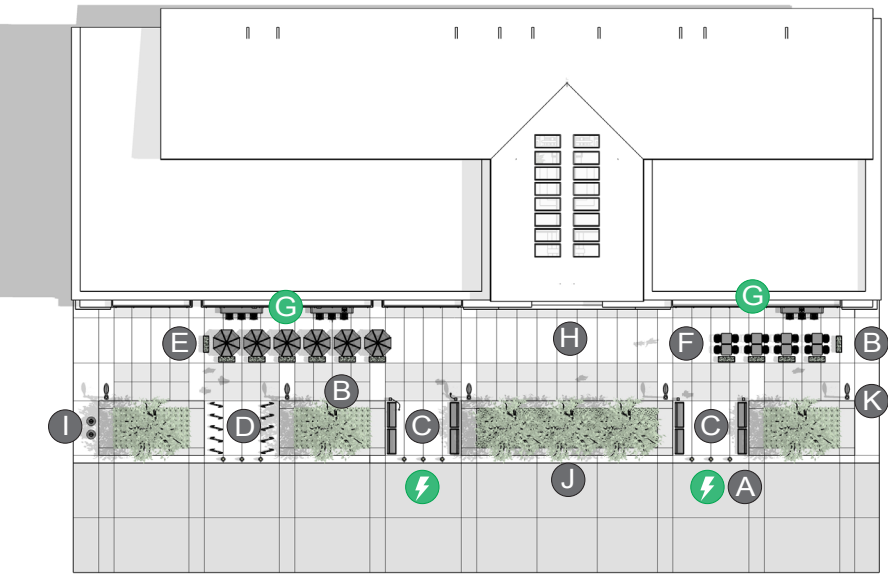

PLACE:
WALKWAYS AND CONNECTIONS

Walkways and connections provide safe, convenient, and comfortable pedestrian transitions between transit stations and surrounding areas.

PRIMARY INSIGHT:
REDUCE STRESS

Providing settings that stimulate moments of respite and relaxation reduces stress for travelers and commuters.

ELEMENTS, ATTRIBUTES, AND USER EXPERIENCE

- A** Small seating oases are positioned away from the main walkway, safely bounded by elevated landscaping and illuminated **Sentinel bollards**.
- B** **Sorella planters** add color near storefronts, offer a stress-reducing connection to nature, and provide a welcoming boundary around the periphery of outdoor dining areas.
- C** **Stay benches** with backs provide comfortable face-to-face seating to enhance social interactions.
- D** **Loop bike racks** are positioned in a secure location off the pedestrian walkway.
- E** **Catena tables** with **Verona chairs** and **Equinox umbrellas** provide a shaded, relaxing dining experience.
- F** **Parc Centre tables** and **Parc Centre chairs** offer a casual seating area for respite.
- G** **GO OutdoorTables** with **Chipman stools** give the commuter a comfortable off-path break while still staying powered with USB and GFCI outlets.

ELEMENTS, ATTRIBUTES,
AND USER EXPERIENCE (CONTINUED)

- H** Generously scaled walkways provide ample space for pedestrians and cyclists in addition to seating areas in front of cafés and restaurants.
- I** Chase Park litters provide attractive options to conceal and recycle waste.
- J** Plentiful landscaping stimulates visual senses and connects people with nature for rejuvenation.
- K** Signal pedestrian lighting is scaled to safely and effectively illuminate walkways throughout the day and night.
- A** Outdoor charging stations adjacent to benches, tables and chairs provide convenient access to power and USB charging.
