Bicycle Station 2 (BS)

PLACE: BICYCLE STATION

A sheltered space that provides security, wayfinding, and places to rest.

PRIMARY INSIGHT: ESTABLISH A SENSE OF SECURITY

Creating safe environments for people and their belongings establishes a sense of security and releases the mind to experience the relaxing and rejuvenating effects the outdoors offers.

PLAN

ELEVATION

ELEMENTS, ATTRIBUTES, AND USER EXPERIENCE

- A** **Scenic** creates a visible destination point as well as a weather shelter for bikes and people.
- B** Scenic glass panels can display commuting and trail maps.
- C** Scenic solid panels with LED inserts provide ambient lighting and a sense of place.
- D** The Scenic louvered roof provides protection from wind and sun; weather management offers control of sun and shade levels and rain protection.
- E** In public places, Scenic lighting options such as lighting inserts in the panels offer a level of security and extend use of the station.
- F** The Scenic in-line bench offers occupants a convenient surface for organizing belongings and serves as a gathering spot for hikers, cyclists, or commuters.
- G** **Theory Thick benches** and **Thin benches** offer a place to sit and rest or organize gear and belongings.
- H** **FGP bike racks** provide secure storage of bicycles. Multiple bike racks could be specified for larger bike stations.
- I** **Northport path lighting** defines the edge of the bike station and provides a level of comfort and security during evening use.
- J** Conveniently placed **Rockford Litter** receptacles keep the area free of litter and provide ample capacity.
