PLAN

ELEMENTS, ATTRIBUTES, AND USER EXPERIENCE

A A trio of Scenic structures become pergolas on the rooftop deck, providing shelter, amenities, and a sense of place in an outdoor setting.

B Scenic louvered panels offer visual privacy for occupants from inside the building and adjacent pergolas.

C The Scenic louvered roof provides protection from wind and sun; weather management offers control of sun and shade levels and rain protection.

D Power for overhead lighting is delivered through Scenic's posts and beams. Charging access points can also be located near tables and chairs.

E Harvest standing-height tables with Harvest stools offer generous surfaces for dining or working.

F Monterey sofas, Monterey club chairs, and Cora tables within the interior of Scenic create conversation groupings adjacent to the fireplace.
