

A low-angle photograph of a modern building at dusk. In the foreground, a tall, slender, golden-colored light pole stands vertically, topped with a glowing circular light fixture. The building behind it has large glass windows reflecting the twilight sky, with some interior lights visible. The sky is a deep blue with soft, wispy clouds.

Outline

Redefine the Ordinary

A performance luminaire. A sculptural wayfinding element. An illuminated architectural detail. Outline reimagines the familiar lighting element, bringing visual interest, performance and versatility to urban environments.

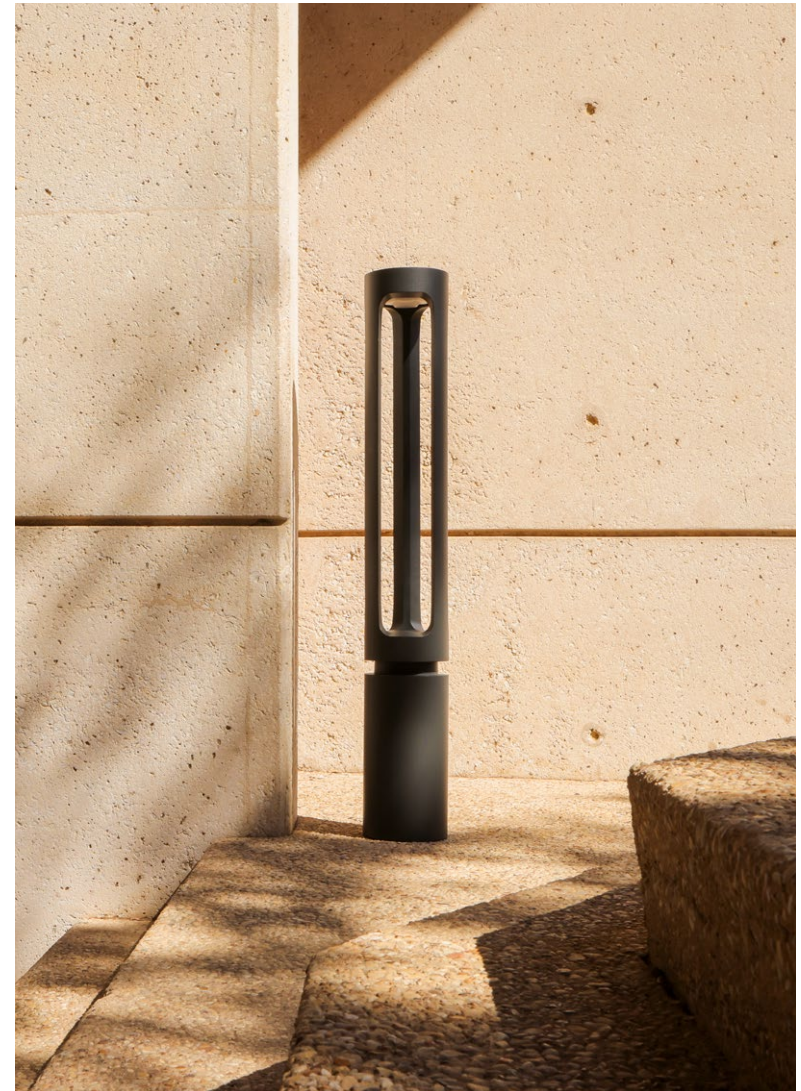

SCIENCES BUILDING

Outline communicates refinement and elegance with the robustness required for public space. Equally at home in an urban setting, a streetscape or on campus, Outline beautifully defines space through form and light.

The Landscape Forms design team recognized an opportunity when designing Outline: to combine elevated performance and refined aesthetics in the common light column.

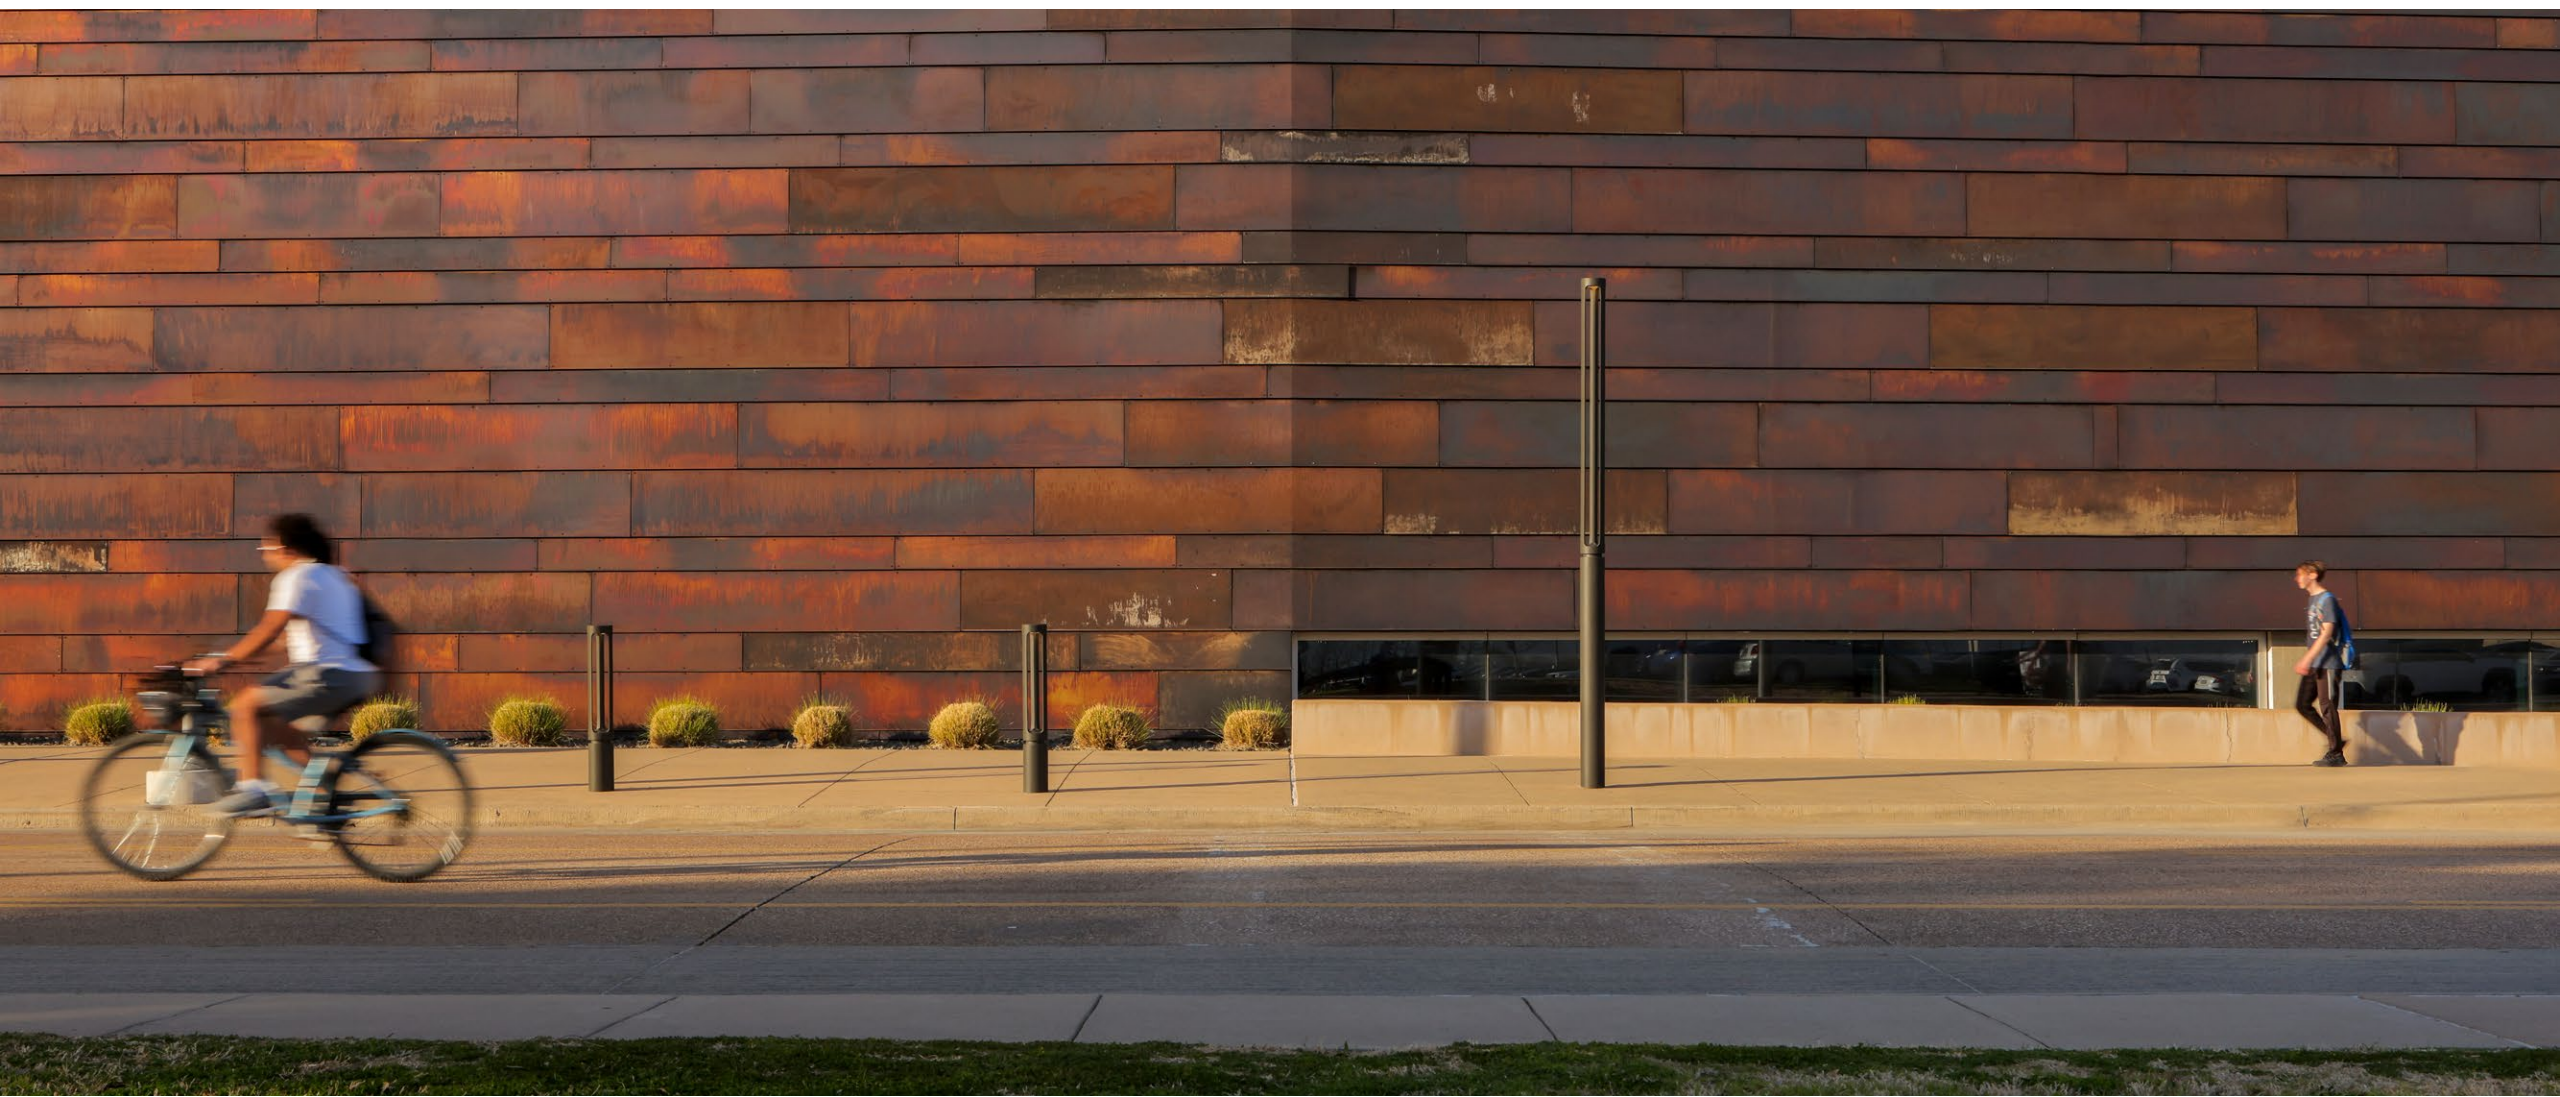

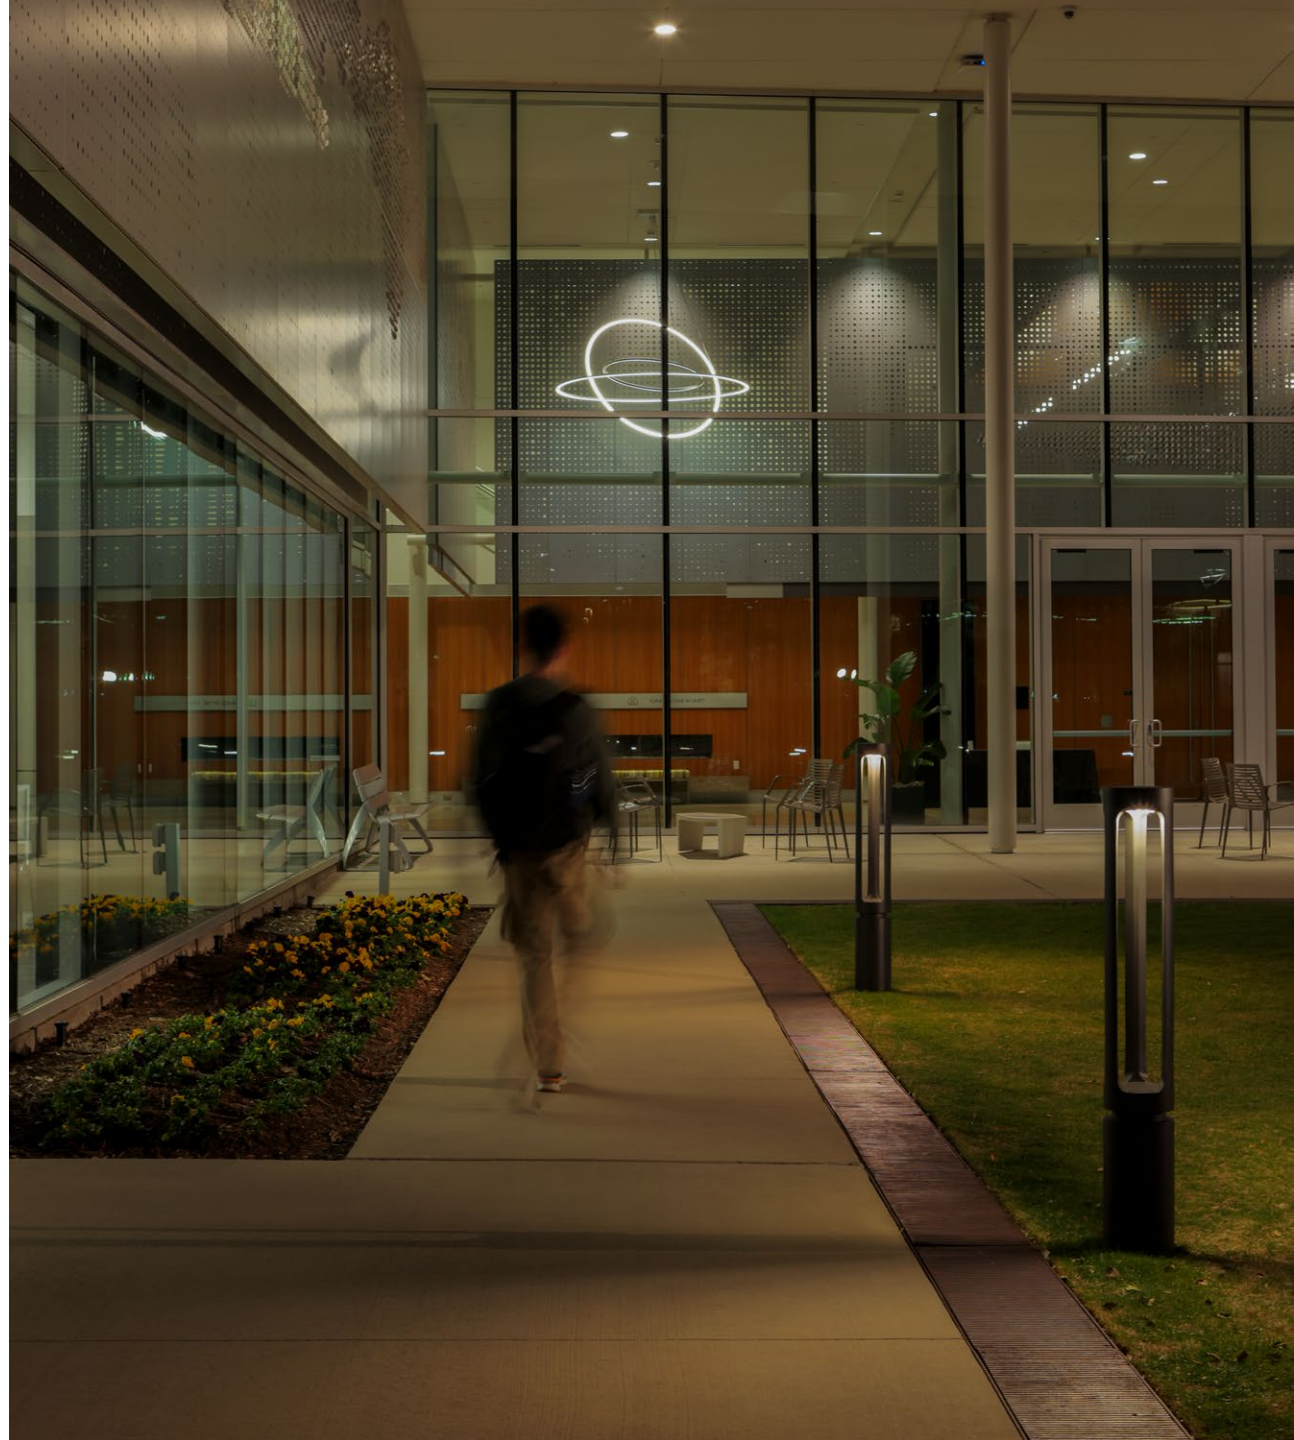

A complete luminaire family.

10' and 12' column lights, and a 4' path light (available unlit) make up the Outline family of luminaires. Each is offered with a choice of distribution options, and, for the pedestrian scale versions, a choice of lumen packages.

Outline path lights and unlit bollards elegantly define space, intuitively guide traffic, and confidently extend the usability of the outdoors with its sculptural, modern form.

Outline is International Dark-Sky Approved and is Buy America Compliant. It eliminates high angle glare (G-0 rated), enhancing visual comfort, the visual experience and safety in public space settings.

Refinement is in the details.

Outline's design is refined down to elegant touches and the subtlest of details, including the seamless transition between luminaire and ground plane, elimination of visible fasteners, and discreet flush handholes that allow easy access for installation and maintenance.

Sculpture, function and design possibility.

Outline offers the versatility to illuminate a range of settings throughout the urban environment: defining space within parks, plazas and greenways; delineating streetscapes; lighting the way along pedestrian paths; signaling destinations and entrances; and even forming sculptural installations of varying heights.

SCIENCES BUILDING

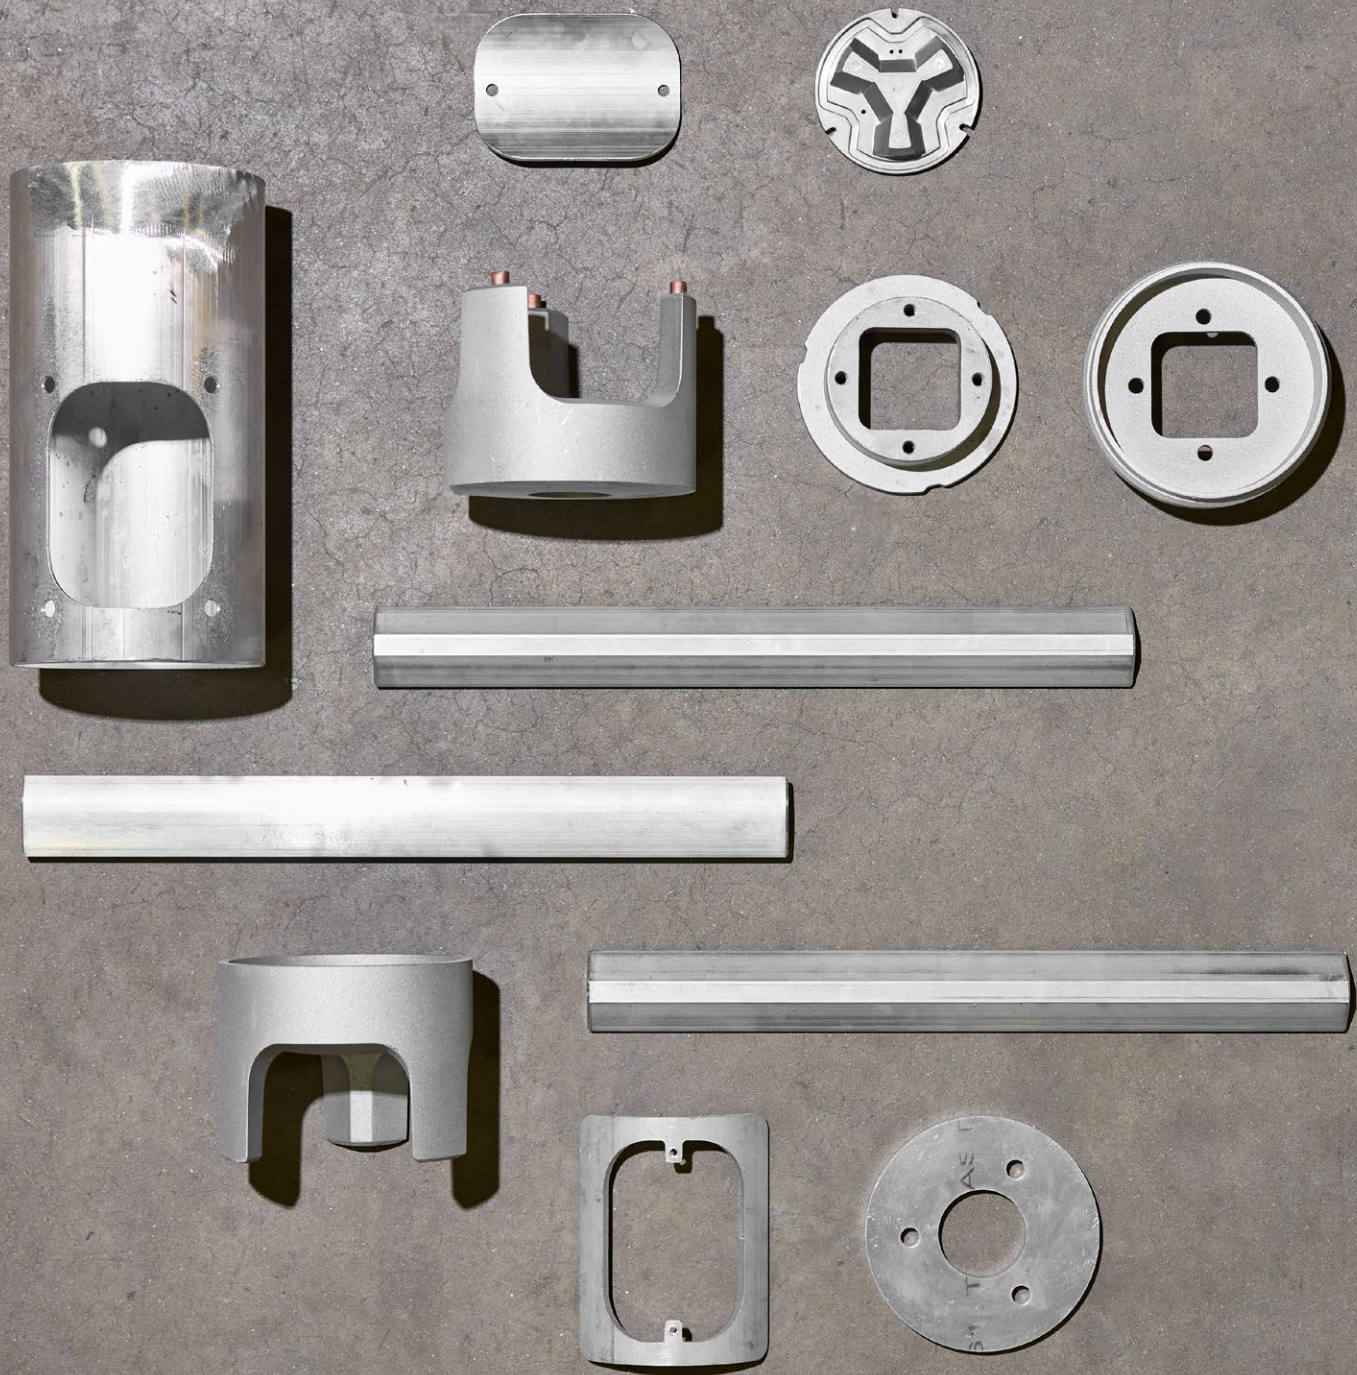

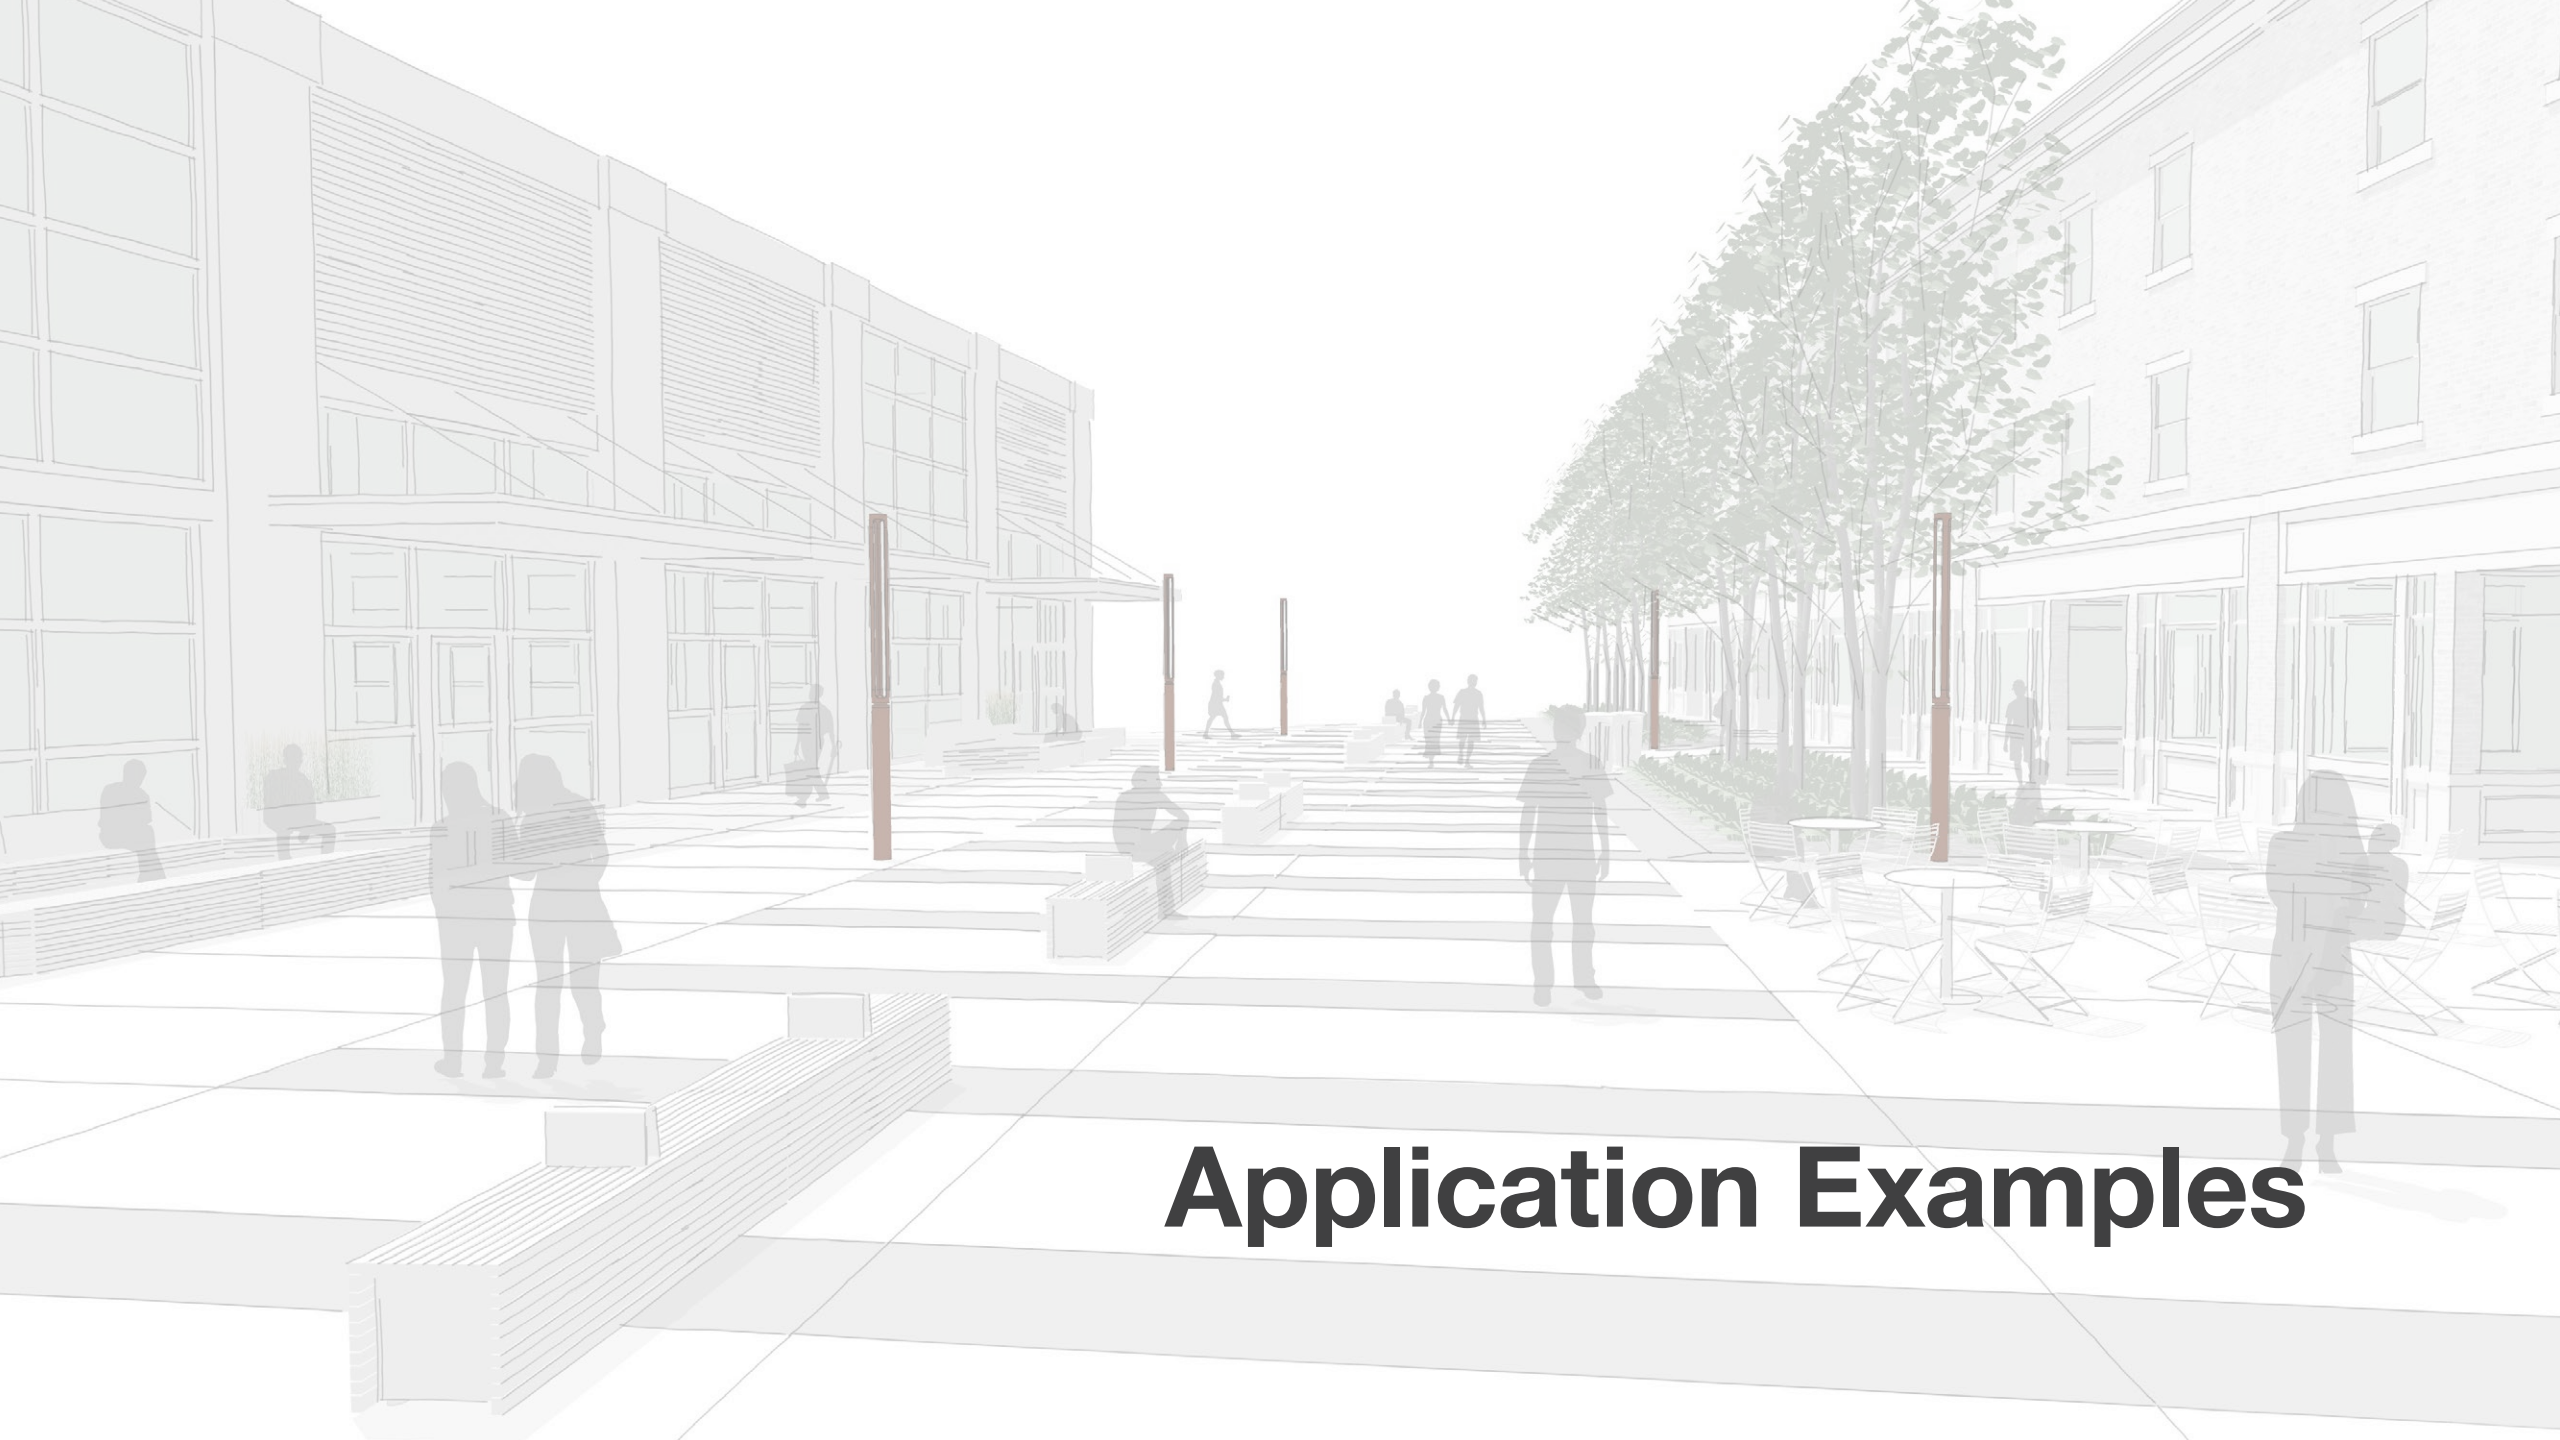

More than the sum of its parts.

More than just an assembly of castings and extrusions, Outline is a singular form, unique as much for its design as the craft manufacturing and finishing processes used in its creation. Landscape Forms' by-hand craft manufacturing process gives Outline its uniquely crisp lines, soft fades and seamless transitions. It begins with aluminum castings and extrusions, which are then precisely welded, ground, and finished to create a luminaire with sophisticated form and enduring beauty.

Proudly crafted in Kalamazoo, Michigan, Outline is public space-ready, modern yet approachable, and eager to make a statement with robust, meticulously crafted form.

Materials

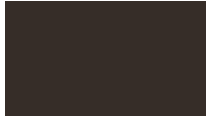

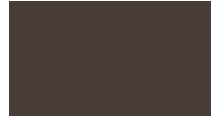

Vivid Series - Powdercoated Metal (Fine Texture)

					
Clay	Lemon	Mango	Chili	Loll Apple Red	Loll Leaf Green
					
Moss	Forest	Loll Navy Blue			

Neutral Series - Powdercoated Metal

					
Silver Metallic	Mercury Metallic	Steel Metallic	Bronze Metallic	Titanium Metallic	Gloss Black
					
Gloss White					

Architectural Series - Powdercoated Metal (Fine Texture)

					
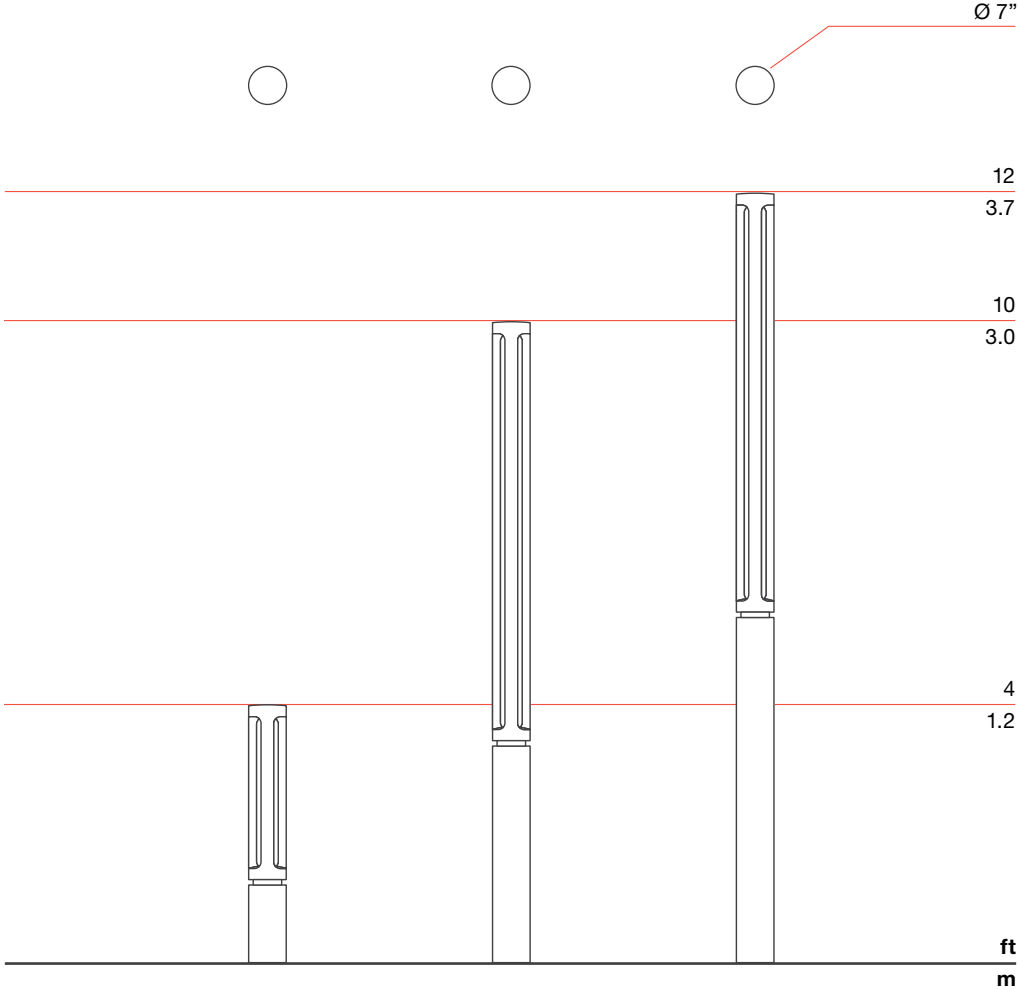

Fog	Obsidian	Matte Black	Terra	Nutmeg	Onyx
					
Sage	Blue Ash	Dusk			

Features

- Elegant design and high-craft finish
- Visual comfort optical package
- IDA Dark Sky approved
- Pedestrian scale version at 10', 12'
- Pathlight at 4'
- Made in Michigan – BABA compliant*
- IP66 Rating
- 6 Year Warranty

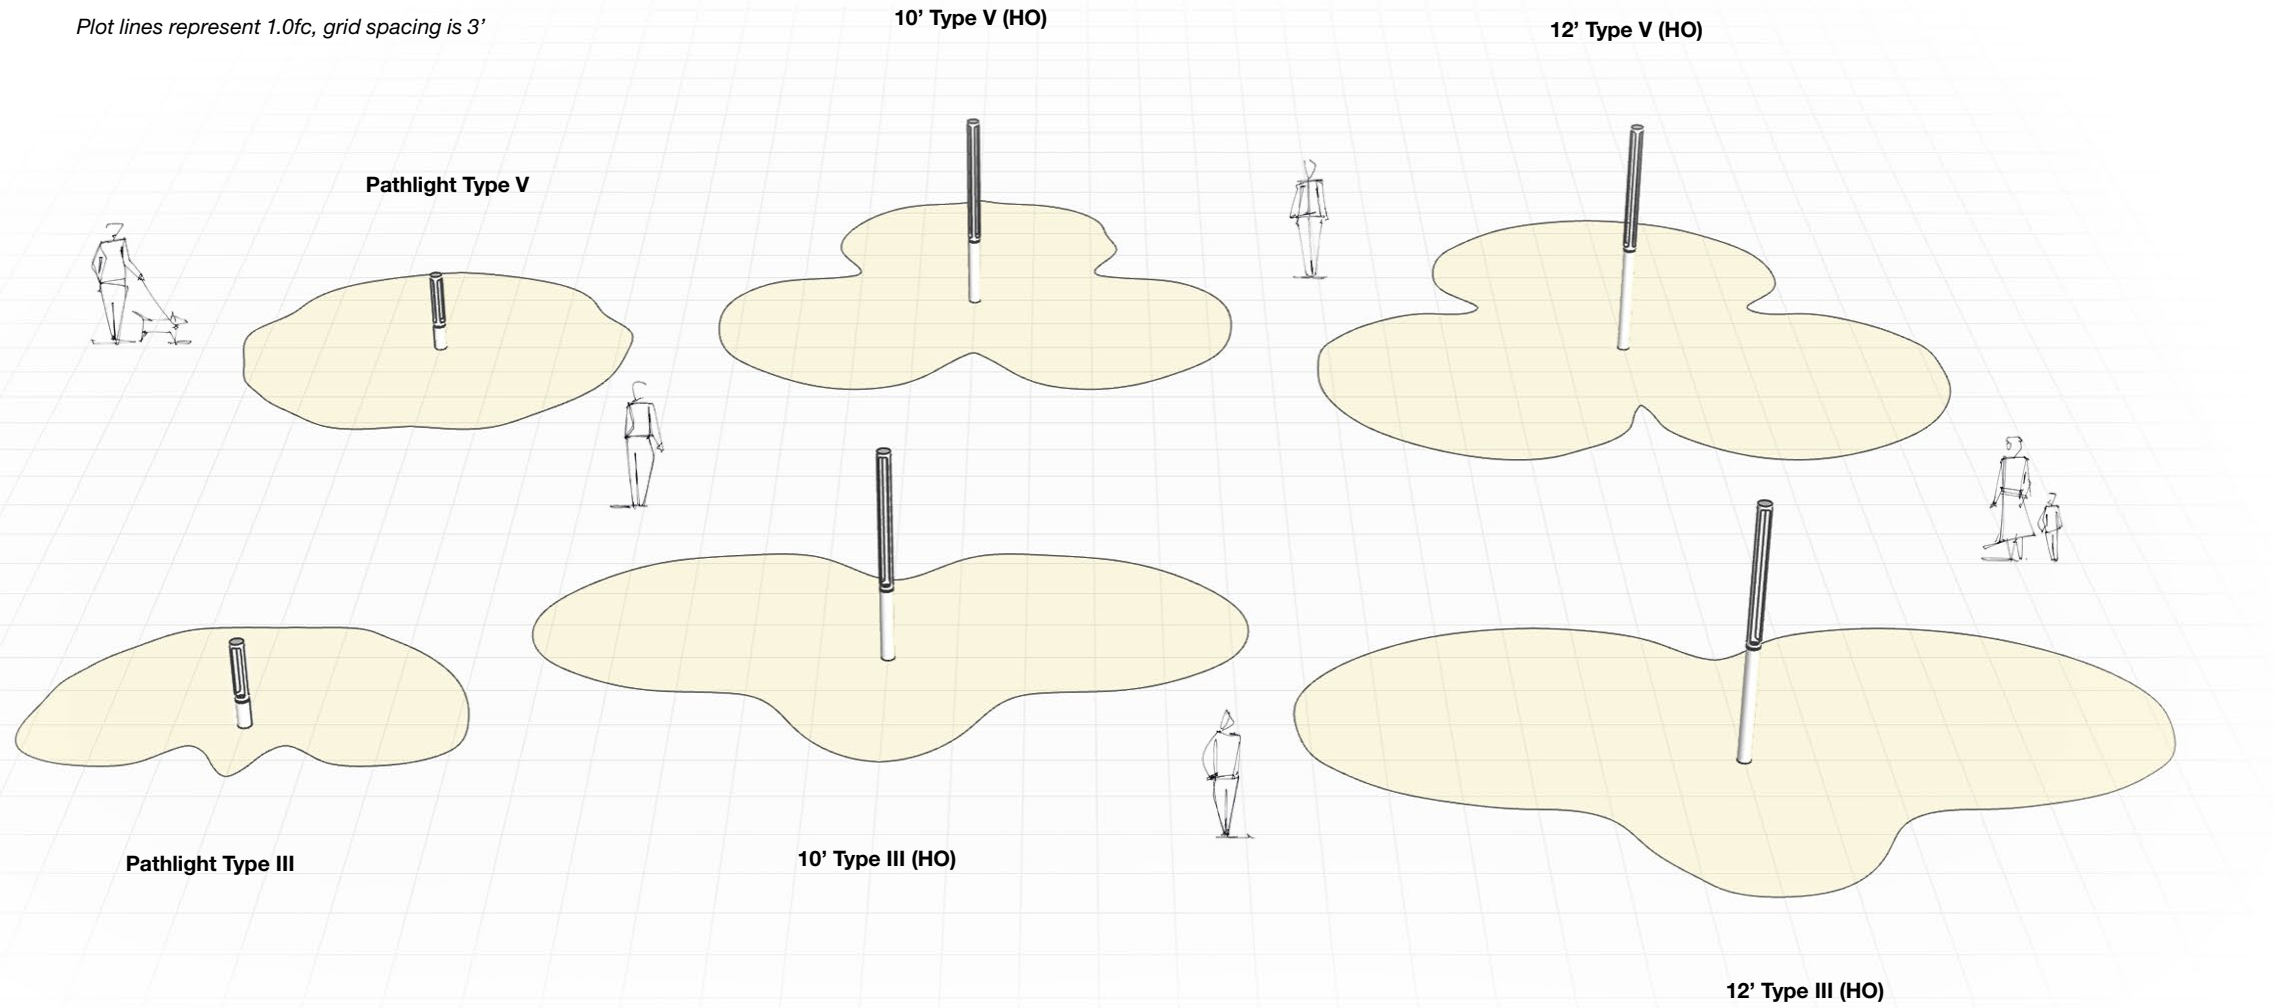

Options

- Pedestrian scale output at 800-2300lm
- Pathlight output at 700-1000lm
- 2700K-4000K options (80CRI min)
- Types III and V distribution
- Multiple drive current options
- 7-Pin NEMA Receptacle
- GFCI Outlet with In-use cover
- Custom heights on request
