

Table

Product Data Sheet

Landscape Forms tables are durable, weather-resistant furniture solutions for courtyards, campuses and cafes, parks and private outdoor settings. Powdercoated Catena table tops come in square and round sizes. Stainless steel Catena tops have a handsome random-patterned matte finish and smooth, rolled edge. Steelhead tops sport a tubular frame that lends them a distinctive profile. Marneaux tops, made from a 100% acrylic resin solid surface, are good looking and scratch-stain-chip, and crack-resistant. Four base styles enable tables to be freestanding, surface mounted or embedded, to meet individual project requirements. All tables work and play well with Landscape Forms chairs for outdoor environments.

Table Tops

Catena and Steelhead Metal Tabletops

- Catena and Steelhead tabletops are formed of heavy gauge steel with reinforced steel channels beneath.
- Powdercoat tables are available with a round or square table top.
- Catena round tables feature a rolled edge and are available in 30", 36" or 42" diameters, in powdercoat or stainless steel metal.
- Square table tops are available in 30" or 36".
- Stainless steel is only available as a round table top.
- Steelhead is available with a solid or perforated metal tabletop framed by a 1-1/2" diameter tube.
- Steelhead is available in 36" or 42" diameters.
- Perforated metal top available in 42" diameter only.

Marneaux® Solid Surface Tabletops

- Marneaux tabletops are made from a 100% acrylic resin solid surface material.
- It's been a designer-preferred material for countertops because it resists scratching, staining, chipping and cracking.
- Weather, harsh chemicals, and UV rays have virtually no effect on the "through-body" color or structural integrity.
- Marneaux is available in 30", 36" or 42" diameter; 36" square.

Supports

- Embedded, surface mount or freestanding support options may be specified.
- Supports are formed of metal.
- Catena base is formed of cast iron.
- When umbrella is specified with 24" or 30" round or 30" square table, support must be surface mounted or embedded to safely anchor table.
 - When metal umbrella is specified with table, all tables must surface mounted.
