

Sustainability Data Sheet

Sustainability is the foundation of Landscape Forms' commitment to enhance the experience of outdoor space. Across our portfolio, we prioritize responsible design, materials, manufacturing practices and partnerships that honor the environments we help shape—today and for the future. Each solution reflects our ongoing efforts to reduce environmental impact and advance sustainable landscape design through thoughtful decisions across the entire lifecycle.

Take-Out is manufactured using the following materials:

Material	Parts	Recyclable
----------	-------	------------

Aluminum	Seat, Back, Frame	100%
----------	-------------------	------

Finishes

On hand-brushed, clear anodized products, the finishing process converts the aluminum surface to aluminum oxide, creating a super-strong, corrosion-proof layer suited to outdoor use.

For Navy Lounge, hand-brushed aluminum frames receive a clear powder coat, preserving the look of brushed aluminum while supporting long-term outdoor performance.

Packaging Materials	Parts	Recyclable
---------------------	-------	------------

Biodegradable Plastic	Product Bagged to Protect Finish	100%
-----------------------	----------------------------------	------

Recycled Skid		100%
---------------	--	------

Sustainability Data Sheet

Recycled Content		
Style	Post Consumer	Pre Consumer
1006 Navy Chair	50%	50%
1006 Navy Stool	50%	50%
1 Inch Stool	50%	50%
1 Inch Table	50%	50%
Heritage Rocking Chair	40%	40%
Navy Lounge Chair (Armless)	23.6%	23.6%
Navy Lounge Chair (With Arms)	25.3%	25.3%
Navy Lounge 2-Seat Sofa	15.8%	15.8%
Add Navy Lounge 3-Seat Sofa	21.2%	21.2%

Care and Maintenance

Emeco aluminum furniture is designed for long life, and routine care helps maintain the appearance and performance of its finish over time.

For hand-brushed, clear anodized aluminum, clean regularly with soap and water and dry with a soft cloth. For outdoor applications, cleaning every two weeks is recommended to remove grit and airborne pollutants that can affect the surface. For heavier dirt or oil, use very hot water and strong soap, followed by light scrubbing in the direction of the aluminum grain with a soft-bristled brush or damp scouring pad. Light scuff marks may also be addressed by gently scrubbing with the grain. Do not use stainless steel cleaner on aluminum furniture. Emeco Navy chairs and stools with brushed finishes are bleach cleanable, and hydrogen peroxide-based cleaners may also be used at a 1:10 dilution.

For hand-brushed, clear powder coated aluminum frames on Emeco Navy Lounge, clean with a soft, non-abrasive cloth using warm water and mild soap, then rinse with clean water and dry thoroughly. Avoid abrasive cleaners, harsh chemicals and strong rubbing.
