

# Gather

landscapeforms

## Product Data Sheet

Rooted in the idea of creating more relaxed and sociable public settings, Gather is a modular seating system that brings people together through its fluid, organic forms and adaptable, versatile design. Its linear, concave, convex, and end modules can be combined in diverse configurations, ranging from enclosed pocket spaces, to straight benches, to seating around green islands. Gather is crafted using Escofet's proprietary UHPC-Slimconcrete, and includes the option for a bespoke aluminum armrest.

### Bench

- Gather is a modular seating system with the ability to fit multiple applications.
- The modular seating system is comprised of backed benches that can produce configurations in straight, curved and serpentine styles.
- Bench styles available include a linear straight bench, concave angled bench, convex angled bench, and left and right ends.
- Gather benches are cantilevered seats that have a tall backrest.
- Gather Concave and Convex benches have a 60 degree angle curve.
- The seat height of the Gather benches is 17.75".
- Constructed of Slimconcrete® (UHPC), the bench is 100% recyclable material (see below for further detail).
- Bench is anchored to ground with screws.

### Material

- Slimconcrete® is the trademarked name used by Escofet for its ultra-high performance cast stone, a recipe in which the aggregate contains reinforcing elements such as fiberglass.
- Slimconcrete® is a highly engineered material that enables casting of lighter weight, thin-profile forms with exceptional strength and high resistance to compression, bending, impact and wear.
- It has spurred experimentation with form and the creation of cast concrete products with novel structural and aesthetic qualities.
- The colors of Escofet cast stone products are neutral, muted and earth-toned and are derived from the aggregates used in casting.
- The Slimconcrete® colors available are grey, black, beige, and white.
- No color is added in manufacture and no color is applied to finished products.
- The color range of every Escofet cast stone product is predetermined by the formulation used in its manufacture.
- Slimconcrete® products do not require any specific maintenance during their estimated lifespan of more than 30 years.
- Water absorption and freeze-thaw cycles can cause weathering, a reproduction of the process that takes place in natural rock.
- Escofet applies a waterproof finish to its products to protect against this process.
- Escofet cast stone products are large and heavy.
- Shipping, receiving, staging and installing these pieces is more akin to handling large statuary or pre-fabricated architectural elements.
- See installation guide for important information.

|   | Style     | Depth  | Length | Height | Weight       |
|---|-----------|--------|--------|--------|--------------|
|    | Linear    | 29.25" | 86.5"  | 45.25" | 2,103.5 lbs  |
|    | Concave   | 41.25" | 86.75" | 45.25" | 1,997.5 lbs  |
|  | Convex    | 40.5"  | 86.5"  | 45.25" | 1,785.75 lbs |
|  | End Left  | 23.25" | 29.25" | 45.25" | 727.75 lbs   |
|  | End Right | 23.25" | 29.25" | 45.25" | 727.75 lbs   |

## Product Data Sheet

### Product Warranty

- Escofet warrants the durability of its product to Landscape Forms for a period of five (5) years from the date of invoice.
- The warranty covers the repair or replacement of the product or components at no charge.
- Notwithstanding, this warranty does not cover damages to Escofet products resulting from unloading; handling; installation; abuse; exposure to paint, liquids or corrosives; or any other damage not attributable to Escofet.
- The warranty shall also be void if Escofet products are tampered with, handled, removed or modified by persons not authorized by Escofet; or if the product has not been properly maintained by the customer.

### To Specify

Specify Gather, select style(s), and choose Slimconcrete® color. Benches come standard anchored and ships fully assembled.
