

Grasshopper

landscapeforms

Product Data Sheet

The Grasshopper table and bench stretch Slimconcrete® technology to its limit. Ultra-thin concrete; curved, elongated forms; and a smooth surface create a dynamic and light appearance. Its incomplete shape produces two personalities. At one end, it closes gently to become a place to chat. At the other end, it opens to invite people to contemplate and observe surrounding views.

Bench

- The Grasshopper bench is backless and can be used as a stand alone or as a seating element of the Grasshopper table.
- Constructed of Slimconcrete® (UHPC), the bench is 100%recyclable material. (see below for further detail)
- Bench is anchored to ground with screws.

Table

- The Grasshopper table can be used as a standalone table or as the table element for the Grasshopper bench.
- Constructed of Slimconcrete (UHPC), the table is 100% recyclable material. (see below for further detail)
- Table is anchored in ground with screws.

Material

- Slimconcrete® is the trademarked name used by Escofet for its ultra-high performance cast stone, a recipe in which the aggregate contains reinforcing elements such as fiberglass.
- Slimconcrete® is a highly engineered material that enables casting of lighter weight, thin-profile forms with exceptional strength and high resistance to compression, bending, impact and wear.
- It has spurred experimentation with form and the creation of cast concrete products with novel structural and aesthetic qualities.
- The colors of Escofet cast stone products are neutral, muted and earth-toned and are derived from the aggregates used in casting.
- The slimconcrete colors available are grey, black, beige, and white.
- No color is added in manufacture and no color is applied to finished products.
- The color range of every Escofet cast stone product is pre-determined by the formulation used in its manufacture.
- Slimconcrete® products do not require any specific maintenance during their estimated lifespan of more than 30 years.
- Water absorption and freeze-thaw cycles can cause weathering, a reproduction of the process that takes place in natural rock.
- Escofet applies a waterproof finish to its products to protect against this process.
- Escofet cast stone products are large and heavy.
- Shipping, receiving, staging and installing these pieces is more akin to handling large statuary or pre-fabricated architectural elements.
- See installation guide for important information.

	Style	Depth	Length	Height	Weight
	Bench	18"	63"	18"	507 lb
	Table	35"	75"	29"	1,477 lb

Product Data Sheet

Product Warranty

- ESCOFET warrants the durability of its product to Landscape Forms for a period of five (5) years from the date of invoice.
- The warranty covers the repair or replacement of the product or components at no charge.
- Notwithstanding, this warranty does not cover damages to ESCOFET products resulting from unloading; handling; installation; abuse; exposure to paint, liquids or corrosives; or any other damage not attributable to ESCOFET.
- The warranty shall also be void if ESCOFET products are tampered with, handled, removed or modified by persons not authorized by ESCOFET; or if the product has not been properly maintained by the customer.

To Specify

- To order bench, specify Grasshopper bench and select Escofet standard color.
- To order table, specify Grasshopper table and select Escofet standard color.
- Units are anchored to the ground with screws.
- See materials/color sheet for Escofet's standard color options.

Designed by Makoto Fukuda for Escofet
