

# Naguisa

landscapeforms

## Product Data Sheet

Naguisa turns spaces into harmonious landscapes. Its curved, hollowed-out surfaces create meandering, organic resting points. Naguisa is at home in large-scale parks and plazas as well as narrow pedestrian streets and small-scale natural areas. The 63-centimeter high central zone of the reinforced cast stone bench serves as a backrest/armrest, while the 38 centimeter-high zone gently beckons sitters. By joining several of the four-meter curved arcs together, closed circles with 7.5 or 11 meter diameters can be formed. The pieces can also be arranged in parallel lines, creating a sinuous bench application. In 2007, Naguisa was awarded the Silver Delta Prize by the Association of Industrial Designers for the Encouragement of the Decorative Arts (ADI-FAD).

### Bench

- Naguisa is a series of modular arc-shaped benches.
- Available in four different sizes.
- Backed benches can be arranged to create closed circles or zigzag arrangements.
- Closed circles have a 7.5 or 11 meter diameter.
- Benches are freestanding.
- Naguisa is constructed of reinforced cast stone (see below for further detail).

### Material

- Reinforced Cast Stone is cast stone that is poured and cast over a stainless steel bar cage built to fit within the walls of the mold.
- Reinforced Cast Stone makes it possible to cast thinner, irregularly shaped forms while retaining appropriate strength.
- The colors of Escofet cast stone products are neutral, muted and earth-toned and are derived from the aggregates used in casting.
- No color is added in manufacture and no color is applied to finished products.
- The color range of every Escofet cast stone product is predetermined by the formulation used in its manufacture.
- Cast stone products do not require any specific maintenance during their estimated lifespan of more than 30 years. Water absorption and freeze-thaw cycles can cause weathering, a reproduction of the process that takes place in natural rock.
- Escofet applies a waterproof finish to its products to protect against this process.
- Escofet cast stone products are large and heavy.
- Shipping, receiving, staging and installing these pieces is more akin to handling large statuary or pre-fabricated architectural elements.
- See installation guide for important information.

	Style	Depth	Length	Height	Weight
	A R375	47"	149"	25"	5,401 lb
	B R375	49"	149"	25"	4,960 lb
	A R550	47"	167"	25"	6,063 lb
	B R550	49"	167"	25"	5,732 lb

## Product Data Sheet

### Product Warranty

- ESCOFET warrants the durability of its product to Landscape Forms for a period of five (5) years from the date of invoice.
- The warranty covers the repair or replacement of the product or components at no charge.
- Notwithstanding, this warranty does not cover damages to ESCOFET products resulting from unloading; handling; installation; abuse; exposure to paint, liquids or corrosives; or any other damage not attributable to ESCOFET.
- The warranty shall also be void if ESCOFET products are tampered with, handled, removed or modified by persons not authorized by ESCOFET; or if the product has not been properly maintained by the customer.

### To Specify

- To order bench, specify Naguisa, style, select standard color.
- Benches are freestanding.
- See materials/color sheet for standard Escofet color options
