

Serp

landscapeforms

Product Data Sheet

Sinuous and flowing in design, Serp is a modular backless bench system composed of six comfortably rounded forms with differing radii. When combined, the modules allow for limitless configurations and scalability — from long and linear runs, to dynamic and zig-zagging arrangements, to fully enclosed shapes. Optional LED lighting integrated neatly at the base creates magnetic evening ambiance. Serp modules are crafted from etched and waterproofed concrete.

Bench

- Serp is a modular seating system composed of six comfortably rounded forms with differing radii.
- The modular seating system is comprised of backless benches that can produce configurations in straight, curved and serpentine style.
- Optional integrated LED lighting available with 15W and lighting temperature of 3000-6000K and 24V drive.
 - Benches specified with lighting will have an LED length that is determined by the desired configuration. Please work with your local rep and/or our customer service team to identify the required amount of LEDs needed to support your design.
 - LEDs come in lengths of 5 meters, 8 meters and 10 meters and the overall dimensions for configurations are based on the length of the inside and outside radius's selected.
- Serp benches that can accommodate lighting will come with a door for the driver that can be specified on either the left or right side.
 - The left and right of Serp radius benches are identified when facing the inside of a radius.
 - The straight style of Serp only has the door available on one side since the bench sides are interchangeable.
- Bench is made of cast stone with an acid etched/waterproof version (see below for further detail).
- Serp benches come standard freestanding.

Material

- Cast stone that is poured and cast over a stainless steel bar cage built to fit within the walls of the mold.
- Cast Stone makes it possible to cast thinner, irregularly shaped forms while retaining appropriate strength.
- The colors of Escofet cast stone products are neutral, muted and earth-toned and are derived from the aggregates used in casting
- No color is added in manufacture and no color is applied to finished products.
- The color range of every Escofet cast stone product is predetermined by the formulation used in its manufacture.

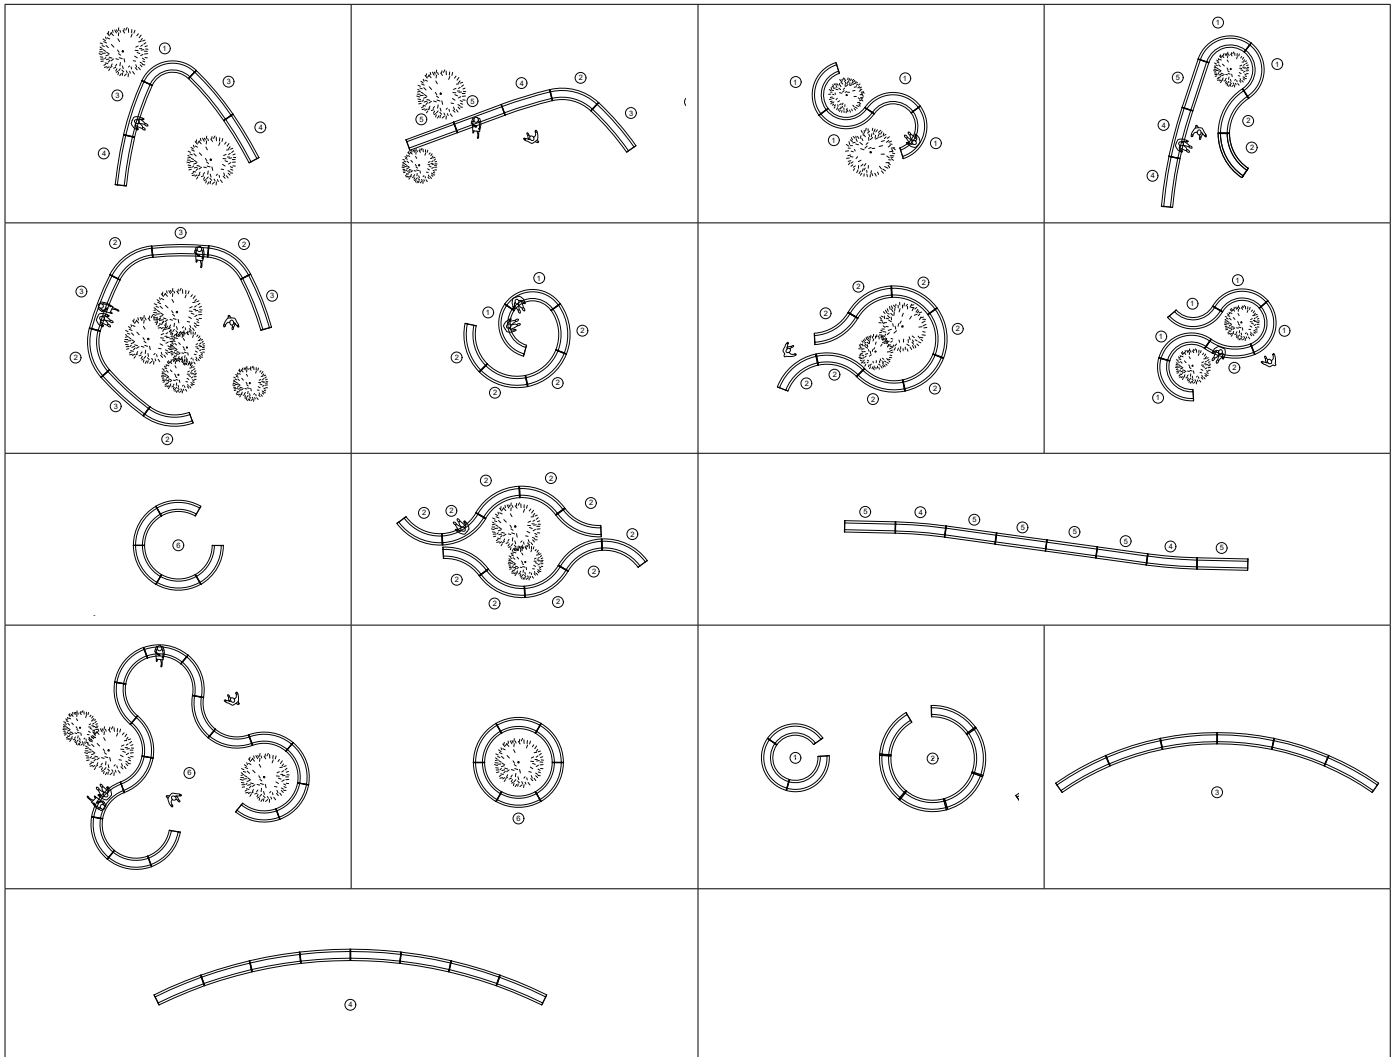

- Cast stone products do not require any specific maintenance during their estimated lifespan of more than 30 years. Water absorption and freeze-thaw cycles can cause weathering, a reproduction of the process that takes place in natural rock.
- Escofet applies a waterproof finish to its products to protect against this process.
- Escofet cast stone products are large and heavy.
- Shipping, receiving, staging and installing these pieces is more akin to handling large statuary or pre-fabricated architectural elements.
- See installation guide for important information.

	Style	Depth	Length	Height	Weight
	Serp R100 Curved	36.25"	96"	21.25"	3,152.75 lbs
	Serp R185 Curved	28.25"	87.75"	21.25"	2,742.75 lbs
	Serp R1185 Curved	22"	99.5"	21.25"	3,276 lbs
	Serp R1915 Curved	21"	88.25"	21.25"	2,925.75 lbs
	Serp R150 Curved	27.5"	78.25"	21.25"	2,412 lbs
	Serp Straight	19.75"	88.5"	21.25"	2,965.5 lbs
