

Wave

landscapeforms

Product Data Sheet

Captivating in its undulating organic form, Wave is a modular platform crafted from etched and waterproofed concrete ideal for sitting and reclining, basking in the sun and gazing at the sky. Able to be configured in linear, lateral and grid-like arrangements, Wave's surface pattern maintains continuous, rhythmic curvature. Elevated slightly on its plinth, Wave creates an alluring illusion of flotation — an effect accentuated by optional LED lighting integrated on the underside of the seating surface.

Bench

- Wave is an organic shaped bench that can be used in modular configurations.
- Configurations of Wave can be made laterally or linearly to create an illusion of floating above the ground.
- Optional lighting is available in 8W and 3000K or 6000K.
- Bench is made of cast stone with an acid etched/waterproof version (see below for further detail).
- Wave can either be freestanding or anchored to the ground with screws.

Material

- Cast stone that is poured and cast over a stainless steel bar cage built to fit within the walls of the mold.
- Cast Stone makes it possible to cast thinner, irregularly shaped forms while retaining appropriate strength.
- The colors of Escofet cast stone products are neutral, muted and earth-toned and are derived from the aggregates used in casting.
- No color is added in manufacture and no color is applied to finished products.
- The color range of every Escofet cast stone product is predetermined by the formulation used in its manufacture.
- Cast stone products do not require any specific maintenance during their estimated lifespan of more than 30 years. Water absorption and freeze-thaw cycles can cause weathering, a reproduction of the process that takes place in natural rock.
- Escofet applies a waterproof finish to its products to protect against this process.
- Escofet cast stone products are large and heavy.
- Shipping, receiving, staging and installing these pieces is more akin to handling large statuary or pre-fabricated architectural elements.
- See installation guide for important information.

	Style	Depth	Length	Height	Weight

Product Data Sheet

Product Warranty

- Escofet warrants the durability of its product to Landscape Forms for a period of five (5) years from the date of invoice.
- The warranty covers the repair or replacement of the product or components at no charge.
- Notwithstanding, this warranty does not cover damages to Escofet products resulting from unloading; handling; installation; abuse; exposure to paint, liquids or corrosives; or any other damage not attributable to Escofet.
- The warranty shall also be void if Escofet products are tampered with, handled, removed or modified by persons not authorized by Escofet; or if the product has not been properly maintained by the customer.

To Specify

- Specify Wave, choose concrete color and optional lighting, and select mounting (freestanding or anchored). Wave ships fully assembled.
