Sustainability Data Sheet

Sustainability is the foundation of Landscape Forms' commitment to enhance the experience of outdoor space. Across our portfolio, we prioritize responsible design, materials, manufacturing practices and partnerships that honor the environments we help shape—today and for the future. Each solution reflects our ongoing efforts to reduce environmental impact and advance sustainable landscape design through thoughtful decisions across the entire lifecycle.

FGP is manufactured using the following materials:

Material	Parts	Recyclable
Aluminum	Bench Supports, Litter Frame, Bike Rack, Light Pole, Luminaire	100%
Wood	Wood Accents, Panels	100%

Finishes

All metal is finished with Pangard II® polyester powdercoat, a lead-free and hazardous air pollutants (HAPS)-free finish that does not generate hazardous waste and contains less than 1% VOCs. Once cured, trace VOCs are fully inert, ensuring the finish does not release airborne contaminants.

Anodized aluminum is a prefinished aluminum material with an integral oxide layer that enhances corrosion resistance and long-term durability. Unlike applied coatings, the anodized finish is bonded to the metal surface, creating a hard, protective layer that resists weathering, fading, and wear in outdoor environments. The finish requires minimal maintenance and contributes to an extended service life while retaining the natural appearance of aluminum.

Landscape Forms exterior wood products are made from species that weather naturally in outdoor settings to a silvery gray patina. No paints or applied finishes are used, as these would require ongoing maintenance

Landscape Forms' exclusive LF-80 wood finish, a clear, catalyzed acrylic lacquer. Natural concrete surfaces are porous and exhibit a distinctive cured texture, which may include voids and natural absorption of discoloring tannins

Packaging Materials	Parts	Recyclable
Biodegradeable Plastic	Product Bagged to Protect Finish	100%
Recycled Skid		100%
Cardboard with 35% Recycled Content		100%

To find local recyclers visit: for aluminum: www.recyclealuminum.org; for steel: www.recycle-steel.org; for cardboard: www.fibrebox.org.

Sustainability Data Sheet

Recycled Content

Style	Post Consumer	Pre Consumer
LED Path Light	10%	16.7%
Luminaire Only	3%	17%
Pedestrian 12-ft Light	16%	10%
Pedestrian 14-ft Light	17%	10%
Pedestrian 16-ft Light	18%	9%
Bike Rack	0%	20%
Side Opening Litter, Jarrah	0%	50%
Side Opening Litter, Ipe	1%	47%
Backless Bench, 70-in, Jarrah	1%	8%
Backless Bench, 70-in, Ipe	1%	7%
Backed Bench, 70-in, Jarrah	1%	8%
Backed Bench, 70-in, Ipe	1%	7%

Care and Maintenance

All metal is finished with Landscape Forms' proprietary Pangard II® polyester powdercoat, a durable yet flexible finish that resists rusting, chipping, peeling, and fading and requires no solvents for cleaning. Surfaces should be cleaned with a soft cloth or brush and mild detergent, avoiding steam cleaning, abrasive cleansers, carbon steel brushes or wools, and chlorine-based cleaners. Outdoor use requires periodic inspection for scratches, nicks, and gouges, which can be repaired with touch-up paint provided with each order.

Exterior woods require no maintenance, but if desired, surfaces can be scrubbed with warm soapy water and a soft bristle brush. Heavily ingrained stains may be sanded away with fine sandpaper along the grain, and sanded areas will weather naturally to a gray patina. Pressure washing and steel wool or wire brushes should be avoided. Interior woods require only dusting or occasional cleaning with a good-quality furniture polish.

Interior woods are finished with Landscape Forms' exclusive LF-80 clear, catalyzed acrylic lacquer and require very little maintenance. Simply dust surfaces regularly with a clean soft cloth and occasionally polish with a quality furniture product.
