

Flo

landscapeforms

Product Data Sheet

Flowing design secures 3-4 bicycles and accepts horseshoe style lock. An artful solution for bicycle storage and security that meets Association of Pedestrian and Bicycle and Professionals (APBP) recommendations.

Flo

- Capacity: 3-4 bikes
- Bike rack is made of 1.5" o.d., .120" wall stainless steel tubing, with a #4 satin electropolish finish on bare stainless steel.
- Flo is also available in powdercoated steel. Nylon glides cushion the two intermediate loops.
- Flo may be surface mounted or embedded.
- Flo can secure three bicycles parked parallel to the rack.
- The bicycles must alternate directions, so access is required from both ends.
- If access is limited to one direction, the capacity is reduced to two bicycles.
- The rack provides two-point contact to prevent the bicycles from tipping over.
- A standard D-shaped bike lock can secure both a wheel and the frame.

Finishes

- All metal parts are finished with Landscape Forms' proprietary Pangard II® polyester powdercoat, a hard yet flexible finish that resists rusting, chipping, peeling and fading.

To Specify

- Specify Flow, select powdercoat color or stainless steel, and choose mounting (surface mount or embed).
