

FORTUNATO

Product Data Sheet

Ergonomic in its contours, Fortunato is a comfort-able urban seat. This sculptural and whimsical "rock bench" with its softened rotund geometry comes in two sizes, a long rectangle and a smaller bench, which can be paired with long or short "rock backrests."

Bench

- Fortunato is a Cast Stone bench that comes in two sizes, a long rectangle and a smaller bench, which can be paired with long or short backrests.
- The backrests are made of Reinforced Cast Stone.
- Seat and back elements are freestanding, and the optional backrests are bolted into nut inserts cast into seats.
- Fortunato has a soft acid-treated and waterproofed finish, and is available in Grey, Black, White and Beige.

Material

- Cast Stone is a proprietary mixture of cement, water and aggregate (stone) used for casting thick, heavy pieces.
- Cast stone has the strength to support massive geometries.
- Reinforced Cast Stone is cast stone that is poured and cast over an iron re-bar cage built to fit within the walls of the mold.
- Reinforced Cast Stone makes it possible to cast thinner, irregularly shaped forms while retaining appropriate strength.
- The colors of Escofet cast stone products are neutral, muted and earth-toned and are derived from the aggregates used in casting.
- No color is added in manufacture and no color is applied to finished products.
- The color range of every Escofet cast stone product is pre-determined by the formulation used in its manufacture.
- Cast stone products do not require any specific maintenance during their estimated lifespan of more than 30 years.
- Water absorption and freeze-thaw cycles can cause weathering, a reproduction of the process that takes place in natural rock.
- Escofet applies a waterproof finish to its products to protect against this process.
- Escofet cast stone products are large and heavy.
- Shipping, receiving, staging and installing these pieces is more akin to handling large statuary or pre-fabricated architectural elements.
- See installation guide for important information.
