Harpo

Casual elegance defined.

A slim profile, clean architectural language, and international design appeal bring together Harpo, a line of five site furnishings designed by father-and-son team Miguel and Gonzalo Milá for Urbidermis Santa & Cole.

With canted arms and a high backrest for exceptional comfort, the Harpo lounge chair introduces a casual attitude with effortless elegance. Armless, laid-back and subtly contoured, two chaise lounges take Harpo into full relaxation mode. The double chaise is an invitation for couples, friends, and families to enjoy moments together outdoors. The single chaise, still generous in its scale, gives outdoor spaces a feeling of leisure and tranquility. Pure, clean and architectural, Harpo benches are offered in two lengths (24” and 69”), with and without backs and arms. And the simple, rectangular dining table is ideal for use with Harpo benches and also offered in two lengths: A 69” long table that seats six, and a 118” long table that seats eight.

Throughout the line, slatted wood seats, backs and tabletops are supported by robust powdercoated bent and welded steel frames. International in expression, Harpo is universally applicable to streetscapes, public parks, campuses, and private spaces. Harpo combines durability and resiliency with refined design to provide enduring value for high-profile, high-traffic and commercial outdoor settings.
