

Harpo Chaise Lounge

landscapeforms

Product Data Sheet

Harpo chaise lounge takes Harpo seating into full relaxation mode. The chaises share the clean, minimal form and architectural clarity of all Harpo seating elements, but with attitudes all their own. The single and double chaises are both generous in scale, simply comprised of a subtly angled plane resting elegantly atop a metal bar frame. The robust bent and welded steel structure with slatted wood seats and backs belie the casual demeanor. Harpo single and double chaise lounges are designed for rigorous public use in parks and college and corporate campuses.

Chaise Lounge

- Chaise lounges are available in single and double units.
- Single chaise lounges are available with freestanding/surface mount supports.
- Double chaise lounges are available with only surface mount supports.
- Supports will ship with glides pre-installed. These glides are removed for surface mounting.
- Supports are freestanding/surface mount.
- Steel supports are powdercoated.
- The single chaise is available in jarrah, ipe, or domestically sourced thermally modified ash (DSTMA) 31/2" wide wood slats.
- The double chaise is available in jarrah or ipe, 31/2" wide wood slats.
- Wood boards are available in either exterior or interior finishes.

Finishes

- Interior woods are finished with Landscape Forms' exclusive LF-80 wood finish, a clear, catalyzed acrylic lacquer.
- Exterior woods are unfinished and will weather to a soft pewter gray, requiring no future maintenance.
- All metal is finished with Landscape Forms' proprietary Pangard II® polyester powdercoat, a hard yet flexible finish that resists rusting, chipping, peeling and fading.
- A wide range of standard, optional and custom colors are available.

To Specify

Specify Harpo chaise lounge, and select option - single or double. Choose wood type and powdercoat color. Chaise lounges ship fully assembled. All chaise lounges are available surface mount only.
