Harvest

Natural Fit

Making people's outdoor experiences better: It's what we do and, in Loll Designs, we found the perfect partner to keep that mission going. Loll Designs shares our enthusiasm for good design that fits the spirit of the outdoors—fresh, natural, and inviting.

Shared Experiences

The Harvest line of communal tables brings us together—whether friends, coworkers, or classmates—to share our experiences outdoors. It celebrates the good life for those who work hard and relax harder. It invites us to “settle in” and share a conversation, a meal, a goal, a laugh, or simply to enjoy the view.

COASTAL BIOLOGY

Fun in Function

Some of our best moments are made outdoors, and Harvest is here to help. Including rectangular tables in standing and dining heights, round tables in standing and dining heights, a round casual height table, and a round side table, the Harvest line welcomes a full range of postures from upright and more formal to low-to-the-ground, kicked back and fully relaxed. Across the board, Harvest tables are generously sized and constructed from durable high density polyethylene (HDPE), designed to gather the whole group in daylight or moonlight. For the rectangular tables, an optional LED light spanning the center sets the mood with warm, gentle illumination. For the round side table, an optional fire pit insert creates a signature outdoor experience that reflects the casual, carefree and “lollygagging” spirit at the heart of Harvest. Benches and stools in standing and dining height round out the Harvest line, accommodating a variety of postures, outdoor environments, and use cases.

Casual Done Right

Harvest's HDPE surfaces won't get too hot or cold and require low-to-no maintenance. The line's colors are blended into the plastic, and a UV-resistant compound is added to the pigment, ensuring many vibrant years in Leaf Green, Apple Red, Sunset Orange, Navy, Dusk, or Black. The rust-proof commercial grade cast and extruded aluminum supports and understructure are finished with Landscape Forms' proprietary powdercoating to resist fading and chipping.

Good Green Fun

The Harvest table, bench and stool tops are made with post-consumer recycled plastic, keeping a considerable amount of valuable HDPE out of the landfill. All elements in the Harvest line are manufactured with nearly zero waste, and, at the end of their useful lives, your Harvest tables, benches and stools can be completely recycled.

Materials

Vivid Series - Powdercoated Metal* (Fine Texture)

					
Clay	Lemon	Mango	Loll Sunset Orange	Chili	Loll Apple Red
