

Lakeside

landscapeforms

Product Data Sheet

Designer Margaret McCurry started with steel side frames that recall platform swings. Her inspiration for the seating was a picket fence around a Victorian era cottage and reflections of forms in the outdoor environments. In the Lakeside bench, as in her architecture, the linkage is artfully transformed so, as she puts it, "the history and memory are there, but they're jogged a bit."

Benches

- Benches are made with dual 1/4" thick steel frames, welded and bolted together with stainless steel hardware.
- Benches are 67" in length and available backed or backless.
- End arms standard on backed benches.
- Picket fence panels may be specified in a variety of wood types.
- All picket fence boards are attached to the steel bench frame with stainless steel hardware.
- Metal seats and seat backs are available in grass or custom designs which are plasma-cut steel panels, bolted to the bench frame with stainless steel hardware.
- Bench comes standard with freestanding/surface mount support.
- Metal panels may be designed with a custom pattern for minimal up charge. Ask your Landscape Forms representative for details.

Litter Receptacles

- Lakeside litter receptacles are available in side or top-opening designs.
- Side-opening litter receptacle has a 30-gallon capacity, top-opening has a 35-gallon capacity.
- Steel panels are available in grass, custom or plain designs which are plasma-cut steel.
- Litters come standard with a removable black polyethylene liner.
- Receptacles are standard with freestanding/surface mount base.
