

MILENIO

Product Data Sheet

This reinforced stone bench, named after Millenium Square in the City of Valladoid where it was first used, is a flexible modular system of geometric elements that can be used in diverse ways. One can sit on it, or on the ground beside it, where it serves as a space-definer and backrest. Straight, left-angled and right-angled modules can be used singly or in multiples to form creative combinations.

Bench

- Milenio is a Reinforced Cast Stone bench.
- This backless bench is available in Grey, Black White and Beige, with an acid-etched/waterproofed finish.
- Milenio is offered in a straight, angled right, or angled left modules, and is freestanding.
- Visit landscapeforms.com and review drawings to determine right and left configurations of bench.

Material

- Reinforced Cast Stone is cast stone that is poured and cast over an iron re-bar cage built to fit within the walls of the mold.
- Reinforced Cast Stone makes it possible to cast thinner, irregularly shaped forms while retaining appropriate strength.
- The colors of Escofet cast stone products are neutral, muted and earth-toned and are derived from the aggregates used in casting.
- No color is added in manufacture and no color is applied to finished products.
- The color range of every Escofet cast stone product is pre-determined by the formulation used in its manufacture.
- Cast stone products do not require any specific maintenance during their estimated lifespan of more than 30 years.
- Water absorption and freeze-thaw cycles can cause weathering, a reproduction of the process that takes place in natural rock.
- Escofet applies a waterproof finish to its products to protect against this process.
- Escofet cast stone products are large and heavy.
- Shipping, receiving, staging and installing these pieces is more akin to handling large statuary or pre-fabricated architectural elements.
- See installation guide for important information.
