MORRISON

Harmonious expressions from a master of modernist architecture

Transform a terrace or roof garden into a gallery with the addition of functional art in the form of Morrison tables and stools. Designed by renowned modernist architect Lionel Morrison, the table frames appear to float, creating an ethereal quality balanced by the strength and texture of wood, concrete, or metal surface inserts. Seamless connections and flawless finishes further define Morrison's timeless artistry.

Elevate the many dimensions of Terrace Life

Morrison makes memorable moments happen in protected private and public spaces. Standing-height rectangular and square tables suit a casual get-together. Dining-height square tables introduce a formal tone to an outdoor space, and lounge-height square tables create a sophisticated, yet relaxed feel. Powder-coated metal stools with inserts matching the table surface complete the Morrison for Terrace Life line.
