

Product Data Sheet

MultipliCITY is an international collection of outdoor public furniture elements that gives new meaning to the term "global design." Created and developed in partnership with celebrated design innovators Yves Behar and fuseproject, MultipliCITY is part of Landscape Forms' Global 45 initiative that pioneers the integration of mass production and custom materials for a global market. The flexible, dynamic system addresses multiple scales, applications and creative expressions and includes six elements: a backed and backless bench, table, bike rack, LED path light and litter. Structural parts are manufactured by Landscape Forms, seating and table surfaces are produced from locally sourced hardwoods in markets outside North America. Flat-pack shipping and local assembly for domestic (optional) and international locations support carbon-reducing sustainability. MultipliCITY is a citizen of the world, equally at home in Buenos Aires, Barcelona and Boston.

Bench

- Benches available backed or backless.
- The bench supports come in prefinished anodized cast aluminum or powdercoat finish, and support wood seating surfaces.
- Mitred benches available backed/backless in right, left, parallel and wedge units.
- Standard angle for mitred benches is 22.5°.
- Most benches are available with freestanding, surface mount, or embedded supports.
- Supports offer a "hidden" mounting system.
- Available in all standard exterior woods, except Redwood.
- Two backless benches are paired with the table to create a picnic style arrangement.
- The straight backed bench is available with or without arms.
- The backed bench also has an offset backrest option to allow the optional tablet to overhang the end of the seating surface to create a workspace.
- Offset backrest bench must be surface mounted or embedded.
