

Northport Bollard

landscapeforms®

Product Data Sheet

Northport Collection bollards frame, define and protect installations with a handsome presence. The subtly tapered aluminum casting complements the curvature found throughout the collection and provides elegant cover for a robust steel ground connection. Northport bollards can be surface mounted, embedded, or feature a removable aluminum casting.

Bollard

- Northport bollard is a cast aluminum form with a powdercoat finish.
- Bollard is 36.5" high from the ground to the top of the casting for all mounting styles.
- Northport bollard mounting includes either embedded, surface mounted or removable.

Mounting

Embedded

- This is the strongest and most common method for installation.
- The steel post is set into an 18" concrete footing.
- The steel post is slipped over the top of the post and locked into the base of the post with tamper-resistant set screws.
- A stainless steel ring helps align and aid installation.

Surface Mount

- An aluminum base plate is anchored to the concrete in three locations.
- The aluminum base plate helps align and aid installation.
- 3 stainless steel leveling glides allow installation to be perfectly "dialed-in" from the top side of base.
- The aluminum bollard is slipped over the top of the base plate and locked into place with tamper-resistant set screws.

Removable

- The removable version aesthetically matches embedded and surface mount versions.
- A galvanized socket is embedded in concrete.
- A steel post is bolted into the aluminum bollard via a stainless steel collar.
- The steel post is inserted into the socket, and secured with a locking mechanism.

Finishes

- All metal is finished with Landscape Forms' proprietary Pangard II® polyester powdercoat, a hard yet flexible finish that resists rusting, chipping, peeling and fading.
- A wide range of standard, optional and custom colors are available.

	Style	Depth	Height	Weight
	Embedded	8.5"	36.5"	52 lbs
	Surface Mount	8.5"	36.5"	38 lbs
	Removable	8.5"	36.5"	70.5 lbs

Specify

- Northport bollard and select powdercoat color and mounting option (embedded, removable, or surface mount).
