

Plains & Pods™

landscapeforms

Product Data Sheet

Plains & Pods are two complementary systems of modular seating, surfaces and planters created with London-based design studio, Industrial Facility. As sibling product lines, they are designed to work both together and independently, and are unified in the way they use non-prescriptive design to inspire designers' creativity and enhance users' autonomy.

Plains

- Plains are large-format, architectural beams and platforms that vary in height and width to create customizable settings of layered seating and surfaces.
- 94" Plains platforms modules are offered in a variety of widths (8", 33", and 49") with short and tall height, with the exception of the trestle style which is only available in one width/height.
- Plains are constructed from either wood or powdercoated metal, with the exception of the trestle style which is only available in wood.
- Plains boards are 7.5" x 2.375" x 94" and only available in powdercoated metal or Jarrah wood.
- Optional metal backrests available, up to four per Plains bench.
- Optional stainless skate stops available in preset configurations.
- Optional side tables in powdercoated metal available
- The 94" trestle style with a 8" width is only available freestanding.
- 94" platforms with a 8" width are only available surface-mounted.
- 94" platforms with 33" and 49" widths come standard freestanding but can be surface mounted.

Pods

- Pods are modular forms for seating and planters designed to be grouped together in tiered clusters.
- Pods seating modules are capped with wood seats and are available three styles, 21", 44", and 56".
- The 56" style is available as just a seat or a seat with planter.
- Pods planters are available in the three same styles, 21", 44", and 56", each with short and tall versions.
- Pods planters soil volumes are as follows:
 - 21", short: 277 lbs.
 - 21", tall: 630 lbs.
 - 44", short: 603 lbs.
 - 44", tall: 1349 lbs.
 - 56", short 1952 lbs.
 - 56", tall: 4266 lbs.
 - 56" seat with planter: 277 lbs.
- All Pods modules are constructed with a bent and powdercoated metal base and include leveling glides.
- Pods planters come standard with drain plug that can be removed and reinstalled based on the users preference.
- Pods are only available freestanding.
