

A row of black metal park benches is shown in the foreground, set on a grassy area. In the background, there are several tall city buildings and bare trees, suggesting an urban park setting. The lighting is bright, indicating a sunny day.

landscapeforms®

presidio™

Presidio complements the urban streetscape, the college campus and the public park by letting the setting shine through.

The Presidio Collection of seating and receptacles was designed by Brian Kane to meet the rigorous demands of unsecured public spaces while keeping the focus on the surrounding environment. Presidio is visually strong and also transparent. It is tough, fail-safe, graffiti-resistant and also remarkably refined. It is manufactured of rugged steel tubing and rods but bears the unmistakable mark of craft. It is simple in its vocabulary of elements, diversified in its possibilities, elegant in its form and presence.

Our Purpose Is To Enrich Outdoor Spaces

We believe in the power of design and its ability to elevate experience and help create a sense of place in public environments. Our high quality products and outstanding customer service have earned us a reputation as one of the world's premier designers and manufacturers of outdoor commercial furnishings.

Presidio™ Specifications

Distinctive

The Presidio™ Collection, designed by Brian Kane, combines graceful contours with durable materials to provide an elegant, yet secure solution for unprotected public spaces. The collection includes seating, litter receptacles and an ash urn.

Durable

Presidio seats and receptacles feature solid metal rods, welded to tubular steel frames. Arms are tubular steel, welded to the seat frame. Seats bolt securely to a horizontal tubular steel support, which may be freestanding, surface mounted or embedded.

Seats

Presidio seating is offered with or without backs. Arms may be specified for either style. One arm – left or right side – or two arms may be specified per seat. Left or right arm is determined from the position of sitting in the seat.

Presidio seating may be specified in straight runs or standard curved configurations of 60" radius or 118" radius (to center of support). For special applications, custom radius curves are available.

Supports may be specified freestanding, surface mounted or embedded.

Receptacles

Presidio litter receptacles are offered in side- or top-opening styles. These durable units feature a hinged door and rigid polyethylene liner with a 30-gallon capacity. Freestanding/surface mount tabs are standard. A keyed door lock may be specified for additional security.

Finishing

Metal is finished with Landscape Forms' proprietary Pangard II® polyester powercoat, a hard yet flexible finish that resists rusting, chipping, peeling and fading. Call for standard color chart. A wide array of optional colors may be specified for an upcharge.

To Specify

The Presidio Collection offers a wide range of design versatility. Refer to the Presidio Collection Specification Guide for complete information. Visit landscapeforms.com; click Design Tools, Materials/Colors link for standard offerings.
