sorella

Classic in form.
Sleek in steel.

Sorella is the lovely Italian word for “sister” and an apt name for this attractive family group. Sorella planters are related in their steel construction and softly curved rectilinear profile, complimentary in their individual shapes and sizes. Square and rectangle shapes in two heights offer an unusually broad vocabulary of elements for outdoor or indoor use. Simple and elegant, Sorella is comfortable with traditional and contemporary architecture, furniture and landscapes, in public and private spaces. Choose satin-finished stainless steel or powdercoated metal to suit the setting.

Our Purpose Is To Enrich Outdoor Spaces

We believe in the power of design and its ability to influence and elevate the quality of public space. High quality products and outstanding customer experience makes us one of the world's premier designers and manufacturers of outdoor commercial furnishings.

Sorella Specifications

Sorella planters may be specified in powdercoated metal. Planters available in rectangle or square shapes, in 18" and 30" heights.

Fabricated, welded and ground steel panels attach to a polyethylene base, with glides and optional drain holes.

Planter bases and glides are compression-molded recycled plastic resulting from an innovative, patented melting process that utilizes 100% post-consumer and post-industrial waste. This unique process blends several material types, channeling more discarded plastics away from the landfill and into new life. Bases are 100% recyclable.

Planters are freestanding, with the exception of those noted below.

* Planters must be surface mounted.

Finishes

All metal is finished with Landscape Forms' proprietary Pangard II® polyester powdercoat, a hard yet flexible finish that resists rusting, chipping, peeling and fading. A wide range of standard, optional and custom colors are available.

To Specify

Select Sorella planter, product description and size. Select powdercoat metal color. Specify with or without drain holes.
