Tuuci Ocean Master
MEGA MAX Classic

MEGA Comfort. MEGA Performance. MEGA Presence.

The latest addition to Tuuci's celebrated Ocean Master Collection, the MEGA MAX Classic provides absolute comfort without compromise. With sizes ranging from 16 to 24 feet, the extra large parasols define a new sense of scale for experiencing the outdoors. Effortlessly covering multiple tables or lounge areas with a single shade element, the Ocean Master MEGA MAX Classic opens up a new range of possibilities for flexible, programmable and multifunctional outdoor spaces. Well suited for resort and hospitality settings, corporate and education campuses, outdoor dining destinations, and multi-family residential settings, MEGA MAX's sheer size and coverage transcend parasol territory to offer the unique experience of an outdoor room. Yet MEGA MAX retains the elegance, ambiance and adaptability of a Tuuci parasol, swiftly and easily delivering a variety of upscale, stylish outdoor experiences throughout the day and night.

The pinnacle of Tucci's refined design and unmatched craftsmanship, the Ocean Master MEGA MAX Classic is a dynamic duet of style and performance. The expansive collapsible shade is designed to safely withstand high winds up to 45 mph sustained and gusts up to 75 mph, meaning while smooth and easy to close, MEGA MAX can remain open as a beacon of shelter, comfort and hospitality despite some of the harshest conditions. Tailoring the atmosphere and ensuring utmost comfort underneath a MEGA MAX is simplified with options for integrated lighting. Dual LED luminaires offer independently dimmable up and down light. Key for such a large-format parasol—Tucci's largest and strongest to date—MEGA MAX incorporates innovative performance elements to ensure set-up and operation are smooth, safe and confidence inspiring. The new hinged anchor plate enables the parasol to be secured prior to standing upright, while the telescoping mast allows MEGA MAX to deploy with a graceful gesture, gently lifting up while opening to reduce interference with furniture.

The Ocean Master MEGA MAX Classic is available in square, rectangular and octagonal configurations, each in three sizes. The durable, all-weather canopy is offered in a wide variety of colors ranging from reserved and understated to vibrant and eye-catching. The robust aluminum mast and reinforced ribs can be finished in either a solid color powdercoat or the warm wood grain of Aluma-TEAK. Engineered for utmost strength and durability, with modular components for ease of service, MEGA MAX parasols enjoy long, beautiful lives in the elements while reducing their environmental impact.
